RESOLUTION

ON THE

MANAGEMENT BY GOVERNMENT OF PRIVATE ESTATES

IN THE

CENTRAL PROVINCES

FOR THE REVENUE YEAR 1887-88.

Ending the 30th September, 1888.

NAGPUR:

PRINTED AT THE CHIEF COMMISSIONER'S OFFICE PRESS.

1889.

1/196

Resolution on the management by Government of Private Estates in the central provinces for the Revenue Year 1887-88

Year-1889

RESOLUTION

ON THE

MANAGEMENT BY GOVERNMENT OF PRIVATE ESTATES

IN THE

CENTRAL PROVINCES

DURING THE

YEAR ending 30th SEPTEMBER 1888.

Extract from the Proceedings of the Chief Commissioner, Central Provinces, in the Revenue Department,—No. 1267S, dated Nagpur, the 23rd September 1889.

READ.—Reports by Deputy Commissioners, with remarks by Commissioners, on the working of estates under Government management, during the year ending 30th September 1888.

RESOLUTION.—During the year under review the Court of Wards relinquished the management of four estates with an area of 88 square miles and a rental of Rs. 30,046, but assumed that of eight estates with an area of 69 square miles and a rental of Rs. 24,593.

The total number of estates under management on 30th September 1888 was 139.

Of the eight estates taken up during the year, the management of six was assumed on account of the minority of the proprietor, and of the other two on account of the incompetence and indebtedness of the proprietors.

Arrangements were made during the year to bring formally under the Court of Wards several estates the management of which had been undertaken before the commencement of the Central Provinces Government Wards' Act, 1885, in order to save old and influential families from ruin. The authority of the Court of Wards in these cases rested on agreements made with the owners of the estates.

The arrangement by which estates are managed under agreements with the proprietors is unsatisfactory, and in last year's Resolution it was declared that the Government would not interfere on behalf of indebted proprietors who were not formally disqualified under the Act from contracting fresh liabilities while their estates were under management. At the same time it was said that arrangements should be made to bring formally under the Court of Wards those estates which were held under agreement only. The efforts made to carry out these instructions have on the whole been successful. In some cases proprietors have refused to place their estates formally under the Court of Wards, but the majority have agreed to do so, and their estates are now administered under the Act. Those estates the proprietors of which have refused to take advantage of the Act, have been or will be relinquished, unless there are special and strong reasons for their retention under the agreement with the Deputy Commissioner and the debts can be paid off within a reasonable time.

2. The total income of the year (excluding advances recovered and the principal of debts recovered and loans received) amounted to Rs 16,43,572-11-10, which is more by Rs. 1,09,125-15-3 or 7 per cent than that of the preceding year. The principal sources of revenue are from land, forests, interest on securities and other loans and miscellaneous, and (except in the case of miscellaneous) there is a marked increase under all of these heads as shown below :—

		1886-87. Rs	1887-88. Rs.
Rents	...	9,60,426	10,68,578
Forests	..	67,216	88,965
Interest on loans	...	39,250	48,398
Miscellaneous	...	3,87,925	3,39,696

The wealthiest estates at present under Government management are those belonging to minors and are situated in the Saugor, Jabalpur, Hoshangabad, Nimar, Nagpur, Bhandara, Raipur and Bilaspur Districts. Their annual income is as follows :—

			Rs.	a.	p.
Saugor	... Pitehra	...	30,168	3	3
	Dhana	...	39,257	9	0
Jabalpur	... Bhudagarh	...	32,457	2	10
Hoshangabad.	Timurni	...	38,447	11	10
	Fattehpur	...	59,912	5	2
Nimar	... Mandhatta	...	34,762	9	0
Nagpur	... Bhonsla	...	3,44,897	0	0
	Sausthanik	...	1,24,440	0	0
Bhandara	.... Kamtha	...	79,268	7	4
Raipur	... Bindra-Nawagarh	...	54,976	15	1
Bilaspur	... Pendra	...	33,141	5	6
	Pandaria	...	65,148	14	4

3. A satisfactory feature in the year's returns is the decrease in the amount of arrears which remained uncollected at the end of the year. A considerable portion also of the arrears due on account of former years were collected during the year under review. As much as 93 per cent of the year's demand and more than half of the arrears of former years were collected before its close. This is due partly to the good rabi crops in the Northern Districts where the arrears last year were most noticeable, and partly no doubt to greater care having been taken to collect punctually.

The percentages of the total demand and of the current rental demand which remained uncollected in each Division are shown in the following figures :—

Division.	1886-87.				1887-88.			
	Total demand.	Current demand.	Percentage uncollected		Total demand.	Current demand.	Percentage uncollected	
			Of total demand.	Of current demand.			Of total demand.	Of current demand
	Rs.	Rs.			Rs.	Rs.		
Jabalpur ...	3,33,559	2,37,615	32	24	2,80,299	2,14,647	20	15
Narbada ...	3,09,611	2,34,146	22	13	3,33,100	2,79,531	14	8
Nagpur ...	4,68,667	4,32,216	8	6	5,07,019	4,66,665	5	4
Chhattisgarh...	1,00,387	87,793	7	4	1,35,162	1,28,648	3	0·9
Total ...	12,12,224	9,91,770			12,55,580	10,89,491		

The collections of the Nagpur and Chhattisgarh Divisions are as usual very satisfactory. The outstanding balances in the case of some individual estates are still large, namely, Bangaon and Sonbarra in the Damoh District, Imjhira and Bamhori in the Narsinghpur District, Babai, Malhanwara, Gararia and Bordha in the Hoshangabad District, and Mandgaon in the Wardha District.

In the case of Bangaon it is explained that several of the villages were visited by a severe hail-storm which inflicted such damage on the crops that the tenants were unable to pay their rents. The Deputy Commissioner of Narsinghpur gives several reasons for the bad collections in the Bamhori estate, the chief of which is the unsatisfactory manner in which the Manager of the estate discharged his duties. The same reason is assigned for the large outstandings in the Wardha and Hoshangabad Districts. The Officiating Chief Commissioner cannot accept the inefficiency of the Manager as a satisfactory excuse for the neglect to realize the rents of these estates. In regard to the Imjhira estate the Deputy Commissioner's explanation, namely, that the collections were somewhat impeded by the preparations made for the minor's marriage, is also unsatisfactory.

The debts which in the case of the Borasambar estate in the Sambalpur District and the Umaria estate in the Narsinghpur District are said to be irrecoverable, should be struck off and not included in the total for realization.

Though there is considerable improvement in the matter of collection, yet from some correspondence which has recently been before the Chief Commissioner, it seems that in this as well as in other matters connected with the supervision and direction of these estates the affairs of the Court of Wards have not always received the methodical treatment they need. It appears that the subject of arrears is often taken up at the end of the year when the annual report on the working of the estates is about to be written, and orders are then issued; but no further attention is given to the matter for several months and not perhaps till the time comes round again for another annual report, when the same process is repeated. In this way orders issued are not promptly and intelligently executed and but little progress is made in the collections of arrears.

4. The expenditure of the year is shown in Statement No. III. It amounted on the revenue account to Rs. 12,63,787-9-10, and is compared below with the expenditure of the preceding year:—

	1886-1887			1887-1888.		
	Rs.	a.	p.	Rs.	a.	p.
Government revenue and cesses.	4,36,123	0	3	4,64,103	1	11
Village servants ...	35,217	8	1	39,615	5	4
Management ...	91,942	8	4	1,09,997	9	5
Interest on debt ...	80,600	8	11	79,172	10	0
Personal ...	3,28,606	12	1	3,87,901	2	8
Education ...	9,426	4	10	21,019	1	3
Miscellaneous ..	89,195	5	6	1,61,978	11	3
Total ...	10,71,112	0	0	12,63,787	9	10

To the expenditure of 1887-88 must be added unadjusted advances outstanding and sums spent on capital account, chiefly in the repayment of debt, amounting to Rs. 5,42,935-12-2, bringing up the total to Rs. 18,06,723-6-0. The year closed with a balance in hand of Rs. 6,90,421-0-3. It is satisfactory to observe that the expenditure on Education has risen from Rs. 9,426-4-10, to Rs. 21,019-1-3. This increase however is insignificant if the income of some of the wealthy estates mentioned above, whose proprietors are minors, is taken into account. The Bangaon estate in the Damoh District has an annual income of Rs. 4,200, yet a sum of only Rs 1-8-0 is shown as having been spent during the year on the minor's education. There is reason to believe, however, that the sums spent on Education have not always been shown under the proper heading, and in some cases have been wrongly entered as personal expenses. This is manifestly so in the case of the Kamtha estate in the Bhandara District the proprietor of which is 15 years old and attends the Zilla School, yet nothing is shown in Statement No. III as having been spent on his education. It is expected that the new system of accounts which will shortly come into operation will leave no room for errors of this kind. The amount spent on personal expenses is somewhat

larger than that of the previous year. This is due solely to a larger expenditure in numerous marriage ceremonies and in providing the Wards with better house accommodation. During the year a close scrutiny was instituted into the expenditure of those estates which are heavily in debt, and reductions were made wherever practicable. The cost of management amounted to Rs. 1,09,997, which is equal to 9 per cent on the income from land and 6 per cent of ordinary income.

5. The progress which was made in paying off debts is shown in Statement No. VI. Out of a debt of Rs. 28,94,326-14-3, Rs. 3,04,323-1-4 were paid off during the period under review, and this exceeds the sum paid last year by Rs. 66,865 or by 28 per cent. The Umerdha estate, which was taken under management in 1875 with a debt of Rs. 21,500, has now been completely freed, and so also has the Sausthanik estate which in 1885 was encumbered with a debt of Rs. 21,624.

These results are good, but in the following cases,—Chachur in Nagpur, Hatta in Balaghat, and Kanteli in Bilaspur,—the efforts of Government Officers were frustrated by the proprietors who have contracted fresh debts.

These estates will be relinquished unless the proprietors place themselves formally under the Court of Wards, or there exist strong and special reasons for continuing the present arrangement and there is a fair prospect of ultimately saving the estates.

6. The Officiating Chief Commissioner observes that not much has been done to apply portions of the large balances which stand to the credit of several estates in making permanent improvements, notwithstanding what has been written on this subject in former Resolutions. The amount spent during the year under review was only Rs. 44,238, which is actually less than that spent the year before (Rs. 46,996). It is surprising that in the flourishing estate of Mandgaon in the Wardha District, which has an annual income of more than Rs. 20,000, nothing was spent in improvements. The Fatehpur estate in the Hoshangabad District has an income of nearly Rs. 60,000 a year and a balance to its credit of 1¼ lakhs, yet only Rs. 131-11-0 were spent in improvements.

Considering the great need in these provinces of the application of capital to the soil and the great advantage resulting from irrigation, it is far preferable that surplus funds should be utilized for improving an estate than that they should be accumulated year after year. It is the duty of the Court of Wards to improve the estate so as to render it more valuable when restored to the proprietor. It is also the duty of the Court of Wards to spend money, as a prudent and right-minded landlord would, in improving the condition of the people and the tenants on the estate. It is not sufficient to hoard up and invest money which may possibly be squandered when the estate is restored to its proprietor. The Administration has therefore frequently impressed on District Officers the great desirability of undertaking permanent improvements in those estates whose financial condition admits of such expenditure. Small schemes have been suggested from time to time, but little has been done to complete them or to give adequate effect to the policy of the Administration in this matter. The reasons assigned for the failure are that professional aid is not always forthcoming when needed, and that there is no qualified person available to whom the execution of such works might be safely entrusted. The Deputy Commissioner of Narsinghpur, who has taken a special interest in improving the estates under his care, complains of his being unable to construct a large tank in the Lunjhira estate owing to the Executive Engineer having failed to visit and examine the project. The Officiating Chief Commissioner thinks that Colonel Bloomfield should have addressed the Superintending Engineer, who will now be consulted with a view to the needful aid being more promptly rendered in future in similar cases. If, as has already been directed, a plan of operations for the improvement of an estate is drawn up at the proper time and approved by the Commissioner, there ought not to be any insuperable difficulty in carrying it out. The Manager of a solvent estate should be chosen with a view to efficiently carrying out improvements. The practical instruction in farm management and surveying which is now being given in the Class of Agriculture formed in connection with the Model Farm at Nagpur, will doubtless in future

years furnish excellent Managers for estates. During the year a Manager was appointed to the charge of the Pandaria estate in the Bilaspur District. This brings up the total number of District Managers to 9.

7. Mr. Crosthwaite considers that something might be done in the larger estates for improving the water-supply and the sanitary condition of the villages on the estate. A good landlord should take the lead in village sanitation, and the Court of Wards when occupying his place should, if possible, set a good example. Proposals, however, for effecting an improvement of this kind would require careful consideration with a view to ascertaining whether they were within the powers of the Court of Wards.

8. There was a considerable increase in the number of suits for arrears of rent, which amounted to 653 against 488 in the preceding year and 372 in 1885-86. The extent to which proceedings were taken for the enhancement and collection of rents during each of the three last years is contrasted below:—

Year.	Notices of enhancement under Section 56.				Suits for arrears of rent.		
	Number served.	Not contested.		Quashed by Civil Courts.	Number successful.	Number partially successful.	Number unsuccessful.
		Upheld by Civil Court.					
		Ending in enhancement.	Ending in ejectment.				
1885-86 ..	236	12	...	1	372	10	24
1886-87 ..	76	18	6	16	488	10	7
1887-88 ...	66	57	7	...	653	18	12

The action of the Courts of Wards, to judge from these results, seems to have been judicious.

9. It may be mentioned in reference to paragraph 2 of last year's Resolution, that orders were issued during the year for the levying of a contribution, according to the practice which obtains in other Provinces, from the estates under management at the rate of 2 per cent on its gross *income* on Revenue account.

10. It is to be added that the causes of the delay which has taken place in issuing this Resolution are the time taken in obtaining correct accounts and explanations from some District Officers, and the circumstance that the printing was deferred till the numerous annual reports with which the Press is burdened in the middle of the year were disposed of. In future the printing will be done early in the year, and the preparation of the annual returns will be greatly facilitated by the new system of accounts which will be introduced at the beginning of next year, and which will admit of the necessary information concerning the financial condition and progress of each estate being rendered immediately after the close of the year.

J. P. GOODRIDGE,

Offg. Junior Secretary to the Chief Commissioner,

Central Provinces.

COLONEL W. S. BROOKE, Deputy Commissioner.

(*c*) Pitehra.—*Income Rs.* 30,168, *Liabilities Nil*).—Since the close of the year under report the management of this estate has been made over to the proprietor Raja Rajendra Singh. This step was taken with the cordial approval of the Rani Golab Kuar, widow of the late Raja, who had previously offered some opposition to the relinquishment of the charge of property by Government.

Rajendra Singh has fair abilities, and if he does not fall into bad hands may be trusted to manage sufficiently well.

The income from lands, forests, interest on Government securities, &c., is about Rs. 30,000 per annum. The cash balance when made over was half a lakh of rupees, and a considerable sum besides invested in Government securities.

During the year under report Rs. 1,463-3-6 were expended on improvements. The bulk of this outlay (Rs. 1,057) was spent in the construction of a ghat to the river Narbada. Rs. 1,000 more will be necessary to finish the work.

The total rent demand including arrears was Rs. 28,956-2-2; of this sum Rs. 26,543-4-8 were collected, the balance outstanding being Rs. 2,412-13-6, or 8·3 per cent. Civil Court decrees have already been obtained for nearly all this amount.

(*a*) Dhana.—(*Income Rs.* 39,258, *Liabilities Nil*). The ward is now 16 years of age. As reported last year she was married in April 1887 to Anundi Lal Dubey and has since been living with her husband at Mauzah Kanjai in the Jabalpur district.

As far as is known, Musst Rajo Bai is in good health. No representation or complaints have been received from her on any subject during the year.

A loan of Rs. 9,000 bearing interest of 6 per cent per annum was given last year to Suraj Persad Dubey, the minor's father-in-law. The advance is re payable in 8 years and the interest yearly. Suraj Persad has however failed to pay the interest due and his replies to references are not very satisfactory.

The claims of Hira Lal Tiwari of Dhana who inherited the property of Musst. Meharani Babu jointly with the minor were settled during the year. A long standing source of trouble has thus been finally disposed of.

The outlay on improvements amounted to Rs. 2,478-10-0; of this sum Rs. 1,569 were spent in damming up streams for irrigation purposes, Rs. 107 in constructing a new well, and Rs. 504 in repairs to a temple and the balance in usual petty works.

Some experiments in cultivation were made in the sir lands of Surki under Colonel Repton's orders. They were so far successful as to demonstrate that the careful sowing of selected seed combined with manure and irrigation yielded a higher return than the ordinary process employed by cultivators. Rs. 50 were spent in English agricultural implements, but the people do not take to them.

The rent collections have been satisfactory. Out of a total of Rs. 29,032-0-6 including Rs. 1,398-4-10 arrears Rs. 27,895-1-4 were realized; only Rs. 361-14-11 of the current demand was outstanding at the close of the year and Rs. 692-5-4 on account of arrears.

(*b*) Barha.—(*Income Rs.* 2,063, *Liabilities Rs.* 1,737). During the year under report Rs. 139-5-8 were paid as interest on debt and Rs. 1,070-7-4 applied in reduction of the principal. It is expected that the whole debt will be wiped off during the current year.

Out of a total rent demand of Rs. 2,100, only Rs. 70-12-6 were in arrears at the close of the year; of this sum Civil Court decrees have been obtained for Rs. 62-8-6.

DISTRICT DAMOH.

Col. H. I. Lugard, Deputy Commissioner.

(*a*) Bangaon.—(*Income Rs.* 4,214, *Liabilities Nil*). Of the total demand, a sum of Rs. 4,044-13-8 was realized, leaving an outstanding of Rs. 2,685-2-3 at the end of the year. On holding special enquiries as to how the large outstanding balances in almost all the estates under management came to be accumulated it was found that the Court Munsarim was entirely to blame in the matter. He seemed to have taken no steps for realization of these outstandings. At the same time, it must be noted that several of the villages were visited by a severe hail storm which inflicted such damage on the crops that the tenants were unable to pay their rents. With the sanction of the Commissioner Rs. 3,000 have since been laid out in the purchase of grain for distribution to the tenants for their rabi sowings.

The ward is a minor of 18. He is robust and continues in good health. He made no progress in his studies last year, though he was sent to Damoh with a view to his being kept under direct supervision. He has lately been placed under the direct control of the Tahsildar of Hatta to look after his estate himself with the assistance of the Court of Wards establishment.

(*a*) Sunbarrah.—(*Income Rs.* 2,906, *Liabilities Nil*). The total demand was Rs. 5,193, of which Rs. 2,187-15-1 were on account of current year and the rest on account of arrears of previous years. 75 per cent of the demand on account of current year was realized in time, but the outstanding on account of past years is still very large.

There are certain old balances amounting to Rs. 1,164-13-5 which are really only fit to be struck off as irrecoverable; but as the estate is about to be handed back to the owner they have been entered as doubtful and he will be left to excuse them if he pleases.

(*a*) Singrampur.—(*Income Rs.* 1,995, *Liabilities Rs.* 3,955). The current demand with a trifling balance has been collected. The total collections, however, exceed the year's demand. Of the outstanding balance of the preceding years, nearly two-thirds has been collected, leaving only a balance of Rs. 418-7-1 still to be realized. This is all recoverable, and efforts will be made to recover it in time. This estate first came under the management of the Collector in 1880 in virtue of an agreement with its proprietor, owing to his being heavily in debt. The management of it was formally taken up by the Court of Wards under the Government Wards' Act by the Chief Commissioner's sanction as conveyed in Junior Secretary's No. 1412-S, dated 19th October last.

(*a*) Hindoria.—(*Income Rs.* 5,761, *Liabilities Rs.* 8). This estate consists of 16 entire villages. The proprietors are 3 minors under the care of their widowed mother. The estate became free from all incumbrances during the year under report. The small amount shewn against estate improvement was spent in improving a garden which was lying abandoned for years. A sum of Rs. 700 was spent in the marriage ceremony of the minor's sister. The wards have enjoyed good health during the year and are progressing in their studies the eldest son, an intelligent lad, being in the 5th Hindi class.

DISTRICT JABALPUR.

Mr. S. Ismay, Deputy Commissioner.

(*a*) Imlai.—(*Income Rs.* 15,510, *Liabilities Nil*). This is a very large and solvent estate. The proprietor is a Gond and is aged 18. He attends the Rajkumar school and is progressing fairly; he was married in 1886 and his wife was brought to live at his family house at Imlai in the beginning of the current year. This latter ceremony, known here by the name of Gowna or Chalava, cost the estate upwards of Rs. 3,000.

As regards arrears, it will be seen that more than Rs. 2,000 were collected out of the old arrears, and the present amount of arrears outstanding is only 10 per cent on the annual rental of the estate. A small amount of Rs. 148 was written off as irrecoverable owing to pauperism or absconding of the tenants who are mostly Gonds.

In estate improvements more than Rs. 4,000 have been spent, chiefly in building the family houses at Imlai, which, when completed, will be worth Rs. 8,000. The estate built a school house for Gonds at Imlai and directions for the construction of a similar building at Khamaria next year have issued.

In connection with the large surplus to the credit of the estate, it has been proposed to invest Rs. 21,000 in purchasing a portion of the estate of Thakur Chet Sing of Sundarpur for the Imlai estate, as the villages of the former are in close proximity to those of the latter and as the proprietors of both estates are near kinsmen.

The young Raja is tall, stout and strong, and his health has been generally satisfactory.

(*a*) Budhagurh.—(*Income Rs.* 33,301, *Liabilities Rs.* 74,991) This is the largest and at the same time the most heavily-involved estate under the Court of Wards. Though the estate has been under Government management for the past 13 years, it has only been brought under the operations of the Court of Wards Act, under Chief Commissioner's sanction conveyed in Junior Secretary's letter No. 987 S., dated 8th October 1887. It is satisfactory to note that the proprietor, Beohar Nirpeth Singh, an intelligent and careful young man, has been rendering good assistance to the Court of Wards in the management of his estate. Of the indebted proprietors under the Court of Wards, he is one of the very few who understands his interests and has not contracted fresh debts.

This year the estate has been able to pay Rs. 10,000 out of the principal and more than Rs. 5,000 of the interest for the whole year. During the last two years it was not found possible to pay any appreciable amount of the principal as the collections were deficient.

Of the arrears of past years, nearly Rs. 9,000 have been collected; as the income of the estate is larger, the amount of arrears is also proportionately large: it will take about 3 good years to realise the whole of the arrears outstanding.

Perhaps it may not be out of place here to note that the name of Raghu Bir Singh, son of Beohar Nirpeth Singh, has been entered as proprietor of an eight annas share in the Budhagurh estate in place of Thakur Pershad an elder brother of the present proprietor, who died about 5 years ago. The boy is about 10 years of age, and is sharp and intelligent. He attends the Hitkarni school at Jabalpur and is reading in the second English standard after passing through the Hindi course.

(*a*) Bujarangarh.—(*Income Rs.* 5,197, *Liabilities* Rs. 2,700). This estate has been formally brought under the operation of the Court of Wards Act on the application of the proprietors declaring themselves disqualified to manage their own estate. They have also contracted fresh debts to the extent of Rs. 4,000, and a little more. These debts have been recently admitted by the Court of Wards.

Out of the old debts of the estate, about Rs. 2,700 remain to be paid. It is expected that within 2 years' time this amount will be cleared off.

(*a*) Kuarpur.—(*Income* Rs. 2,350, *Liabilities* Rs. 8,620). This estate is a part of the Bujrangarh estate. It was taken under Government management owing to the indebtedness of its proprietor, Birsing Deo. The old debts have not yet been all cleared, the amount still remaining amounting to Rs. 8,620. The proprietor, who is an old man of 80 years of age and more, has contracted fresh debts to the amount of above Rs. 10,000, the causes and nature of which have already been reported separately. Recently, the whole of the Bujrangarh estate has been formally brought under the operations of the Court of Wards Act and its new debts admitted.

Debts have been paid off to the extent of Rs. 1,000 including interest. This is nearly half the amount of gross income of the estate.

The arrears are not so large as to call for any special remarks. This much can be said that the whole amount is within time and mostly recoverable.

(*a*) Lamkana.—(*Income Rs.* 9,772, *Liabilities* Rs. 16,048). The estate was able this year to pay off interest up to August last and a part of the principal also. Though the is still indebted to a large extent, the proprietors have contracted fresh debts to the extent of Rs. 20,000. This estate and the Kunda Mardangurh estate have not been formally taken over under Act XVII of 1885, as both will probably be relinquished at the end of the present agricultural year.

More than Rs. 3,000 have been collected out of the old arrears, a large amount of arrears now outstanding is due from the proprietors themselves, who are so heavily involved in debt that their estate may be said to be doomed.

The proposal to sell a few villages of the estate and so free it from its old debts has fallen through, as no purchaser has come forward with any offer.

(*a*) Konda Mardangarh.—(*Income* Rs. 9,834, *Liabilities* Rs. 1,000). The proprietors who are 12 in number and who, though not minors, do not understand their interests, have contracted fresh debts, but have no intention apparently of giving a declaration of disqualification under the Court of Wards Act, 1885.

It is expected that by March next, the debts admitted by the Court of Wards will be paid off with interest, and it will then be time to relinquish the management of the estate.

With regard to arrears of rent, it may be noted here that out of the whole amount of arrears of Rs. 5,861-9-5, about Rs. 3,100 are due from the proprietors themselves, who had taken certain villages on lease from the Court of Wards and who held land as other tenants. This amount the proprietors are not able to pay, and it would have been of no avail to file suits against them and obtain decrees.

As the year was good more than Rs. 4,500 have been paid this year in liquidation of debts and interest, while, in the course of the 3 previous years, it was found difficult to pay the yearly amount of interest due on the principal.

(*a*) Khetola.—(*Income Rs.* 16,515, *Liabilities Nil.*) This estate ranks next to the Imlai estate in point of size and solvency. The proprietor is a minor and attends the Rajkumar school. He is a Brahmin by caste, is fairly intelligent, and is preparing for the Middle School Test which will be held in March 1889. He was married last year, and the gowna or chalava of his wife was performed this year at the cost of Rs. 1,000 which amount is included under the heading of "personal expenditure". An increase of Rs. 15 to his personal allowance has been recently recommended. The boy is healthy though not very robust.

There is an uninvested balance of Rs. 7,000, but, as a large amount of it came in but within these last few months, it has not yet been utilized.

A well in the estate garden at Khitola was re-constructed at a cost of Rs. 368.

With regard to arrears, it may be noted that more than Rs. 6,000 of the old arrears have been recovered, and that the amount now outstanding is all within time and recoverable.

(*a*) Pondi.—(*Income Rs.* 22,623, *Liabilities Rs.* 30,200.) This is a very large estate but indebted. The proprietor is a Brahmin and is aged about 13. He attends the Rajkumar school, and is a sharp, intelligent and hard-working boy. He passed the Middle School examination of these Provinces in March 1888. He has now joined the preparatory Entrance class in the Government High School and will appear at the Entrance Examination to be held in 1890. He has been keeping good health.

The estate has been able to pay off interest on the principal for the last three years and a small sum out of the principal also. Owing to three successive bad seasons, the collections barely sufficed to meet ordinary and permanent items of expenditure. The thread ceremony of the minor which had to be postponed in 1887, owing to want of funds, was performed at the cost of Rs. 1,000 this year which is included in the amount of personal expenditure. The principal amount remaining to be paid is Rs. 30,200.

In connection with the amount of arrears, it may be noted that more than Rs. 9,000 of the old arrears have been collected this year. The arrears were the accumulation of the past three years.

Suits were filed in such cases only in which there was a prospect of recovery and in which the parties obstinately refused payment.

(*a*) Bhatgawan.—(*Income* Rs. 2,416, *Liabilities* Rs. 3,500.) This estate, the assumption of the management of which was sanctioned so long ago as October 1886, was not actually taken under management till December 1887. The proprietor is a Gond minor, aged 14. For education he has been brought down to Murwara since July last and attends the Anglo-Vernacular school there.

The estate is indebted to the extent of Rs. 3,500. Last year, when the estate was taken under actual manngement, a loan of Rs. 4,000 was taken from the surplus balance of the Khitola estate which is also under the Court of Wards, and the old claims were all paid off. Rs. five hundred have been paid off out of this new loan, besides interest. If things continue to go on favorably it will be possible to liquidate this debt in the course of the next seven years.

(*a*) Bandha.—(*Income Rs.* 8,037, *Liabilities* Rs. 23,144). This is a moderately large but indebted estate, and is one of the estates taken under the Court of Wards during the year under report. The minor is a Bania by caste, and is about fourteen years of age. He has been brought down to Jubbulpore, and is a pupil of the Rajkumar school. He reads 2nd English Standard, having finished his vernacular course before he joined the school. He has been keeping good health.

The father of the minor had considerable grain and money dealings, and the debts due to the estate are nominally above Rs. 27,000 as against Rs 23,000 liabilities, so that were it possible to realize outstandings the estate would be at once solvent. Though all new mahajani transactions have been stopped it will take some time to settle up the old transactions. To assist in this work, a moharir on Rs. 10 a month has been entertained under sanction.

In order to clear off old debts a loan of Rs. 24,000 was raised from Rai Bahadur Seth Gokuldass and Rs. 1,400 from the Court of Wards estates for three months' time.

It will be seen that we have paid about Rs. 1,200 from the income of the estate in addition to the amount of loan borrowed.

(*a*) Bijori (Panagarh.)—(*Income Rs.* 10,655, *Liabilities* Rs. 2,946). This estate was taken under the management of the Court of Wards in May 1888. The proprietor (a minor) is a Marwari Brahmin by caste. The family house of the minor is at Panagarh, and most of the villages of the estate are situated in the Jubbulpore tahsil. There is one in the Cawnpur district, in which the minor has an 8 annas share, and which has been placed under sanction in the hands of the Cawnpur Court of Wards for management.

The minor has been brought to Jubbulpore, where he attends the Hitcarni Sabha school and learns Hindi 3rd Standard, at present. As the boy has been an orphan these 4 years and more, and as nobody has taken any interest in his education he has to commence almost anew. The minor is intelligent and may be expected to do well in his studies. He has been keeping good health.

DISTRICT MANDLA.

COLONEL T. W. HOGG, Deputy Commissioner.

(*a*) Madhopur.—(*Income* Rs. 5,054, *Liabilities* Rs. 10,748.) This estate consists of 31 whole villages, 1 share in a village, and two plots. The total income from all sources during the year was Rs. 5,064-15-0, the liabilities being Rs. 10,747-15-3. In June last the leases of all the villages expired, and they are now under direct management.

The estate was indebted to the extent of Rs. 26,944-10-0 when taken under management. Exclusive of interest the debt now amounts to Rs. 10,747-15-3. The amount of the instalments by which the debt is being discharged will have to be reduced, as an increase in the assessment is anticipated owing to the settlement now going on. Moreover, certain Government villages held under lease by the proprietors have been resumed owing to the expiry of the term, which will reduce the income accruing to the estate to some extent. It will thus take a longer period than anticipated to make the estate solvent. Again, a sum of Rs. 2,41 has been held to be payable by the estate to Government on account of certain extra land in6 its possession in excess of that leased.

(*a*) Ghaga.—(*Income Rs.* 1,345, *Liabilities Nil.*) The estate is solvent and has to its credit a sum of Rs. 364-2-10. During the year under notice surplus grain to the extent of 270 maunds was sold for Rs. 253-14-4.

The Deputy Commissioner is endeavouring to arrange for the younger of the two minors being sent to school. The elder lad now aged 18 years does not bear a good character.

(*a*) Singarpur —(*Income Rs.* 2,923, *Liabilities Nil*). During the year under notice a sum of Rs. 5,000 was recovered from Moonnalal Chowdhri. This amount had been deposited with him on a simple receipt, and with the concurrence of the Commissioner of the Division it was thought advisable to recall it.

The marriage of a sister of the wards was celebrated during the year, and a sum of Rs. 1,100 sanctioned for this purpose.

The proprietors are Davaram and Gayapershad Tiwari. The elder is attending to cultivation, and the younger attends the Zilla School and is studying English.

DISTRICT SEONI.

MR. W. A. NEDHAM, Offg. Deputy Commissioner.

(*a*) Dhuma —(*Income* Rs. 6,051, *Liabilities* Rs. 3,497). The proprietor, Thakur Ujiar Singh, aged 16 years, is studying in the entrance class of the Mission School, Seoni, the Superintendent of which writes about him as follows :—

"Thakur Ujiar Singh attends school regularly, is diligent in the prosecution of his "studies, and is making such progress that in all probability he will be prepared for the "Matriculation examination of 1890. His conduct is exemplary."

A sum of Rs. 3,497-3-0 is still due by the estate to Rai Bahadur Seth Gokuldas of Jubbulpore, and is being paid off by annual instalments of Rs. 1,221. The Commissioner did not approve of the proposal to pay off the balance with half prospective interest at once instead of by fixed instalments.

The marriage of Ujiar Singh is to take place this year, and his grandmother is arranging for a suitable bride. The health of the minor was good throughout the year.

(*a*) Khursipar.—(*Income* Rs. 1,881, *Liabilities* Rs. 3,765). Nathey Khan, the proprietor of the estate, has filed the necessary application under Section 7 (*c*) iv, Government Wards Act XVII of 1885.

The liability of the estate is still Rs. 3,765-5-7. It was about Rs. 10,000 when the Court of Wards assumed its management in 1878. So a few years will suffice to free it from all incumbrances. There are no arrears to be recovered.

(c) Kampta.—(*Income Rs.* 826, *Liabilities Rs.* 887). The current rent demand including arrears of previous years amounts to Rs. 743-13-0, of which Rs. 740-13-0 have been realized.

Notwithstanding repeated advice to the proprietor Chuni Lall to have his estate formally brought under the superintendence of the Court of Wards, he has persistently declined to file an application in accordance with the provisions of clause *c.* (iv), section 7 (1) of Central Provinces Government Wards Act. He has moreover incurred fresh debts and wishes to get back his estate.

(a) Lakhnadon.—(*Income Rs.* 4,831, *Liabilities Rs.* 16,749). The marked increase in expenditure under head "Personal expenses" is due to the marriages of the minor wards, Kallandar Singh and his sister Musst. Soobansi Bai, which were celebrated at a total cost of Rs. 800. The former was married to the daughter of Thakoor Ganesh Singh, Talukdar of the Kahani estate in this district, and the latter to Jawahar Singh, nephew of the above Talukdar.

The minors are at head-quarters receiving education in the Mission school. Churaman Singh is aged 8 years and Kallandar Singh 16 years. The latter is not reported of very favourably by the Superintendent of the school and appears wanting in diligence. Their health has been good throughout the year.

All the villages of the estate were leased out for the term of the current settlement, so there is no prospect of improvement in income for such term.

DISTRICT NARSINGHPUR.

Col. A. Bloomfield, Deputy Commissioner.

(a) Imjhira.—(*Income Rs.* 17,276, *Liabilities Nil.*) A little over the current demand has been collected here. It was expected that more would have been realized from the past arrears, but it is feared that the collections were somewhat impeded by the preparations, &c., for the minor's marriage which took place in May last. The arrears are not large. Small sums are outstanding against several tenants who will pay up without being put to the expense of being sued. There were no suits for arrears during the year. Two were pending from last year, of which one was compromised, and in the other a decree has been obtained. The remaining suits shown in Statement No. VII were all in the Saugor district.

The minor Raja Bhan Pertap, is still studying at Jabalpur. He appeared for the Middle school examination this year, and passed in the 2nd class. He now attends the Government High School, and is apparently making steady progress. He was in Narsinghpur in May last. His health is good. Mr. Young always speaks highly of him. During the Christmas holidays Mr. Young took him to Bombay, the trip costing Rs. 250.

All the relatives of the minor were, during the year, very anxious to get him married as he was 15 years of age. They were not encouraged, but as they insisted on its necessity, the Deputy Commissioner at last agreed. The bride, aged 7 years, is the daughter of the malguzar of Bedar of the Saugor district. The marriage cost Rs. 5,000, which amount was duly sanctioned by the Commissioner of Division. There is a fair balance to the credit of the estate, and the Deputy Commissioner was anxious to commence some real improvement. There is a fine site for an irrigation tank about a mile west of Imjhira. From it a large area could be irrigated. The Deputy Commissioner carefully went over the land in the neighbourhood, and could have made good progress by this time, but under the rules, the Public Works Department must first survey it. By waiting for the Executive Engineer's visit there has been a delay of nearly a year. There is no difficulty in connection with the work, and the work could have been got on without the Public Works Department's assistance. The Executive Engineer now says that he will shortly visit the place, so that there is little hope of anything being done for about another year.

(*Remarks by Commissioner.*—This estate is quite solvent, and the Deputy Commissioner's report shows that he has paid great attention to the estate, and its affairs are in a satisfactory condition, and the minor is doing well. A considerable sum of money has been spent in improvements, and the Deputy Commissioner could have liked to undertake the construction of a tank, but has been delayed by the Executive Engineer. I have ascertained from the Executive Engineer that he will go to Imjhira next week to enquire into the scheme).

(a) Narsinghpur.—(*Income Rs.* 26,566, *Liabilities* Rs. 75,457). The total rent collections exceeded the demand. In addition to this, Rs. 2,358-2-5 were collected under decrees for past year. This amount has been transferred to column 16 in Statement No. I, as debts due to the estate, and the realizations have been shown as debts recovered.

This year Rs. 920-8-6 had again to be written off as irrecoverable. In the village of Barehta Rs. 56-11-9 on account of jungle contracts were erroneously shown as rent arrears, Rs. 576-6-3 due from one Murla Shir, were last year recommended for remission, but the Divisional Commissioner did not allow it and ordered that further attempts should be made for recovery. The attempts have proved futile. There is also a decree against this man for Rs. 251-12-0, for the collection of which opportunity is awaited. Rs. 197-4-6 is due from one Umed Jat, who has been declared insolvent. In two cases claims for Rs. 17-14-0 were dismissed on the ground that the tenants had not agreed to enhancement.

The arrears are rather large in the villages of Narsinghpur, Khurai, Kehli and Gidhwani. In Narsinghpur 5 tenants are in arrears to the extent of Rs. 629. Every year they pay something and are therefore not sued. In Khairee 2 men are badly in arrears, one Gajraj owes Rs. 256, and is annually paying something, and the other Fatialllir owes Rs. 239. The recovery of this is doubtful. Of the greater portion of Kehli arrears, Rs. 135 are due by one Har Prasad, who will not pay unless sued. The Gidhwani tenants have this year paid as large a sum as they could under decrees.

Thirty-one rent suits for Rs. 1,361-6-2 have been filed; of these, Rs. 520-3-9 have been recovered. The number of suits this year was about one-third of what it was in 1886-87 and may be expected to decrease yearly, as tenants have now learnt that arrears will not be allowed. Twelve suits were filed for old debts amounting to Rs. 1,097-9-0. The whole amount has been decreed, and recovery has commenced. Some debts due to the estate are of so doubtful a nature that they have been allowed to lapse. The yearly collections however from the questionable debts amount to about Rs. 500.

From July 1879 to September 1886, a period of 7 years, Rs. 8,970-14-11 only of the debts were paid, whereas during the last two years Rs. 13,672-4-7 have been paid, with all interest up to date. In addition to this, arrears of interest, amounting to Rs. 1,406-4, due to the Imjhira estate, were paid off last year. This shows that the progress in liquidating the debts is improving and is now satisfactory. It is hoped that in about 10 years the estate will be free.

(*Remarks by Commissioner.*—The rent collections have been fairly satisfactory, and the Deputy Commissioner has made accordingly good progress in adjusting the liabilities. The estate is a very important one, and it has received close attention from the Deputy Commissioner).

(a) Bohani.—(*Income Rs.* 7,187, *Liabilities Nil.*) The rent collections were good, the full demand and a portion of the arrears having been collected. There are 3 tenants from whom large amounts are due, *viz* :—

		Rs.	a.	p.
1.	Jaggalsingh ...	269	5	3
2.	Thamman ...	202	4	2
3.	Kleelta ...	105	8	0

Suits have been filed against all these and decrees obtained. The amount will be recovered gradually. The other tenants' arrears are insignificant. A small sum of Rs. 8-7-9 due from several persons has been written off as irrecoverable.

The relatives of the minor are thinking of getting him married, and according to the usage of the country he has now reached marriageable age. The youth has expressed a wish to undertake some cultivation, and this year a small piece of land has been reserved, a pair of bullocks purchased, and a servant maintained for the purpose. During the non-ploughing season, the bullocks will be used for conservancy work, and all the village sweepings will be collected and used for manure. This will be a good example to the tenants and to the neighbours. Some repairs to the house at Bohani were made in the month of May 1888. During the holidays, Raja Bhaiya was sent down to the village to look after the work himself. He superintended the repairs and the embanking of the fields, and kept accounts of the expenditure which he afterwards submitted to the Deputy Commissioner for check. He seems to have done well. This year also his time will be utilized in a similar manner.

(*Remarks by Commissioner.*—The management of this estate has been satisfactory. The liabilities have at last been cleared off, and there is a large balance to the credit of the estate. A portion of this balance may well be expended to the works specified in Statement VIII. The rent collection has been efficient, the current demand having been collected almost in full, besides a large amount of arrears).

(a) Bichia.—(*Income* Rs. 2,835, *Liabilities Nil.*)—After much persuasion the proprietor has now, for the last six months, lived in the family house in Bichia; some *seer* fields have been made over to her.

The rent collections were good. The full demand has been collected. There is only one tenant whose field having remained uncultivated was unable to pay his rent amounting to Rs. 30. In addition to this, Rs. 178-14-0 were collected under rent decrees. This sum is included under the heading "debts recovered."

(*Remarks by Commissioner*—There have been some errors in the accounts of this estate which have been corrected. A large balance remained uninvested at the close of the year, but the Deputy Commissioner reports that a portion of this will be spent in the embankment of a field. There might be further expenditure on improvements).

(a) Behrora.—(*Income Rs.* 993, *Liabilities Rs.* 8,257.) The property consists of a single village, *viz.*, Behrora. It is managed under an agreement for the liquidation of debt. Circumstances have proved unfortunate, and the progress of payment of debt has been very slow. This year again nothing could be paid beyond interest. The fields are at present in the hands of solvent tenants, but still full demand could not be collected. One Janki, a maurusi tenant at Rs. 256-15-3, has become insolvent. Her fields are valuable. She has leased them to another man, who did not pay the rent. A suit for the amount was filed and decree obtained, but before any action could be taken the produce was removed.

It is found that, under the present arrangement, it is not possible to make the estate solvent within a reasonable time, and therefore, unless the proprietors consent to make over their *seer* fields which are worth about Rs. 250 a year and are retained by them for maintenance, the estate must be given up.

The proprietors are not minors, and one of them, Bosant Rai, is already employed in the District Office, and another must earn his living away from the village.

(*Remarks by Commissioner.*—The propriety of keeping this estate under management is very questionable. The liabilities have scarcely been decreased at all since the estate was first taken under management.)

(a) Deo Nagar.—(*Income Rs.* 3,144, *Liabilities Rs.* 14,390.)—The progress of the liquidation of debt during the year was satisfactory. Instead of one instalment of Rs. 1,500, as agreed upon Rs. 2,250, including interest were paid.

(*Remarks by Commissioner.*—The management of this estate has been satisfactory. The liabilities are still heavy, but they have been considerably reduced during the year under report. The current demand have also been collected almost in full in addition to considerable arrears.)

(a) Chawar Patha.—(*Income Rs.* 18,802, *Liabilities* Rs. 18,335.) The rent collections were good, nearly the full demand having been collected. The collections at Chirria and Dhonda Kesla fell short of the current demand by Rs. 188-4-0 and Rs. 70 respectively, every effort was made to collect the current demand and arrears from the Chirria tenants, but with only partial success.

Of the Rs. 690-8-9 realized from rent decrees by taking out execution, Rs. 555-8-3 were from the Chirria tenants alone. This year 40 rent suits were filed out; of these 21 were against Chirria tenants alone. Eight suits were filed on account of old debts.

In addition to the usual cash allowance, Rs. 1,000 were allowed for the thread ceremony of the young boy. A much larger amount was asked for, but the above sum was considered sufficient. The ceremony was performed at Chawar Patha. The whole amount was made over to the mother, who is a good manager, and she managed the whole affair.

The progress made both in realizing the debts due to and in paying the debts due by the e tate were satisfactory. The estate will probably be free in about 3 years. Had all the debts due to the estate been good it could be freed sooner. All good debts have long ago been realized, and now only the doubtful ones remain.

[*Remarks by Commissioner.*—This is an important estate and has been well looked after by the Deputy Commissioner. A large portion of the liabilities was paid off during the course of the year, and the rent collections of all villages (excepting Chirria which always gives trouble) were satisfactory.]

(a) Surra.—(*Income Rs.* 986, *Liabilities Rs.* 3,947.) The property consists of 1½ village, *viz*, Surra and half of Hiranpore, a small village with a rental of Rs. 25 only. The proprietors are Karreylal and Makundilal. The estate is managed for its indebtedness. The village of Surra was given on contract at Rs. 800 a year. The lease extended for three years more, but as the lessee's bad management had damaged the land the contract was terminated at the close of the year under report. This has not resulted in gain to the estate, as the present rent roll is only about Rs. 700. It is hoped that by good management this will be increased and the uncultivated lands brought under plough.

(*Remarks by Commissioner.*—This is a poor estate, and it is not at present in a satisfactory condition. The Deputy Commissioner is acting rightly in consolidating the liabilities into one loan and the rent collections have been fairly efficient.)

(a) Bamhori.—(*Income Rs.* 4,124, *Liabilities Rs.* 26,093). The estate consists of 2 whole villages and part of a third. The land is inferior, being of the 2nd and 3rd sort, and the tenants are generally poor and troublesome. Those of Tidnee are the worst of a bad lot and have given much trouble, not paying their own rent, and persuading others to do likewise.

The proprietor, Harshankerlal, lives in a small house at Bambori. His character does not improve, and he has been found an impediment in the management of the estate. It is

unfortunate that his three minor sons cannot be removed from his influence. The funds are so limited that no separate provision can be made for them. Their education is altogether neglected.

Owing to several reasons the rent collections were bad. One Nand Kishore, a man with fair education, was placed in charge of the estate at the beginning of the year. He worked till February, and was entrusted with the collection of the first kist. But when the District Manager went out on tour he found his accounts in an unsatisfactory state and that he was not working properly. He was dismissed and a man named Holkar Singh was then appointed, but he too was found unable to cope with the troublesome people. Then the Assistant Manager was deputed for a time and he was able to improve matters to some extent; an efficient man is now in charge. Added to all these troubles, the kharif crop proved a failure, and many cultivators could not pay their rents.

(*Remarks by Commissioner.*—This estate is heavily involved, and very little was done during the year to pay off the liabilities. The Deputy Commissioner has explained the difficulties that he has experienced in the management, and his report will show that he has done his best to collect the rents and to reduce the arrears, but he has been opposed, both by the tenants and by the proprietors.)

(a) Bhujwara.—(*Income* Rs. 2,837, *Liabilities* Rs. 100).—The estate consists of a inferior proprietorship of the village of Bhugwara. The owner, Beni Singh, is a boy of 11 years He still resides with his mother and grandmother. The boy's education is not well attended to. The widows are rather troublesome, and endeavours are being made to persuade them to send the minor to the school at Bhugwara, as there is not even an indigenous school where the boy can learn anything.

(*Remarks by Commissioner.*—This is a small estate, but it is practically solvent, the balance in hand being sufficient to pay off the small debt of Rs. 100. The rent demand has been collected in full.)

(a) Singhpur.—(*Income* Rs. 13,522, *Liabilities* Rs. 65,571.) The village consists of 6 entire villages and half of 2 others. Two of these are not worth much. Bandhi has a rent roll of Rs. 10 and Gar Pehra is altogether waste. The small income of these is from forests alone. The proprietors were Thakur Jajgat Singh and Dhiraj Singh. The latter died in December last and the management of the property was in his hands till his death. During the year under report it was under the orders of the Court of Wards managed by Thakur Jajgat Singh. He has worked willingly and well. A chaprasi paid by the Court of Wards has been kept to look after the village forests of Garh Pehra and Bandhi. The estate pays only half of its share towards the cost of the management as no rent collectors are employed.

The estate is managed for its indebtedness. Nothing has specially been allowed for the maintenance of the family. Jajgat Singh cultivated *sir* amounting to Rs. 1,500, and paid up all and lived upon the profits. There are no arrears of rent in the whole estate due, it is imagined, to the good management for many years of the late Thakur Dhiraj Singh.

It is satisfactory to record the good work done by Jajgat Singh under the Court of Wards' directions. He is thoroughly reliable. He finds plenty of employment for himself and is much better than any paid agency. His local influence is unimpaired and with his matured experience is of immense assistance to the Court of Wards.

(*Remarks by Commissioner.*—It is satisfactory to note that rents have been collected in full and there are no arrears The liabilities are still heavy, but it is hoped that with good management they will gradually be cleared off.)

(a) Umaria.—(*Income* Rs. 11,538, *Liabilities* Rs. 11,336). Something over the full demand of rent has been collected. The tenants of this estate are poor and in debt, and collections are made with some difficulty. The number of rent suits during the year was rather large;

the total claim amounted to Rs. 1,790-13-5. Out of this, Rs. 932-6-11 have been recovered. Prompt action was necessary, or the mahajans would have attached the produce of the fields and the kist would not have been got in. In most cases the expenses incurred in the suits have also been recovered. These are shown under miscellaneous receipts. In 8 cases maurosi tenants were ejected under rent decrees. In 3 of these cases the tenants were reinstated on paying up their arrears in July. In one case namely that of a poor tenant an instalment bond for Rs. 100-12-8 has been accepted on the security of a small occupancy holding.

Rs. 632-4-6 hopelessly irrecoverable had to be remitted out of the doubtful balance shown last year.

(*Remarks by Commissioner.*—The Deputy Commissioner has appended to his report a long statement of grain alleged to be due by several tenants, but the remarks made in the statement show that the grain is practically irrecoverable. The liabilities are still heavy, and there are debts due to the estate, but the Deputy Commissioner has done his best to get in the debts and to clear off the liabilities.

There are a few rent arrears, but the collections on the whole have been satisfactory.)

DISTRICT HOSHANGABAD.

COL. C H. PLOWDEN, Deputy Commissioner

(*a*) **Umardha**—(*Income* Rs. 6,032, *Liabilities Nil.*) This estate consists of three villages with a cultivated area of 4,270 bighas and 6 biswas. Its management was assumed by Government on the 12th March 1875, owing to the indebtedness of the proprietress Musst. Sohap Kunwar, the liabilities amounting to Rs. 21,500. Of this sum, Rs. 20,858-7-0 had been liquidated by the end of last year, leaving a balance of Rs. 641-9-0, which has been paid off in the course of the year under report. The total demand for the year was Rs. 6,339-7-0, of which Rs. 5,852-11-6, or 92 per cent have been realized, leaving an outstanding balance of only Rs. 486-11-6. This was considerably less than the arrear of the previous year, a detailed list with all particulars of the outstanding was furnished to the proprietress, so that she will have no difficulty in realizing the outstanding for herself.

(*a*) **Pipaldhana.**—(*Income Rs.* 453, *Liabilities Nil.*)—The actual surrender would have taken place sooner, but there was a dispute as to the proper recipients of an item of Rs. 3,000 payable to certain heirs of the original creditors and the adjustment of the difficulty took time. The recoverable balance at the close of the year 1886-87 was Rs. 516-9-4, and the total demand of the year Rs 1,758-14-4, making a total for Rs. 2,275-7-8 for realization. Rs. 83-4-0 of this amount were realized during that portion of the year under report that the estate was under the management of the Court of Wards and the outstanding arrears on the date of surrendering the estate amounted to Rs. 2,192-3-8. A portion of this had been allowed to occur before Colonel Plowden came to the district and a portion in consequence of the gross neglect of duty of the Assistant Manager Daryao Misor who succeeded Chundoolal and who has now been dismissed and the total want of supervision and the neglect of duty of the Superintendent Court of Wards who in despite of urgent calls for information as to the nature and extent of the liabilities took no action, treating all calls on him with passive obstruction. The actual liabilities were, it is believed not fully ascertained when management was assumed and owing to gross laxity of supervision on the part of the Superintendent Court of Wards not only were the proprietors allowed to contract fresh debts, but it seems probable that they were allowed to recover and appropriate some part at least of the supposed unrealized outstandings.

(*Remarks by Commissioner.*—It is not quite clear to me why this dispute referred to by the Deputy Commissioner should have caused delay in the surrender of the estate to the owner.)

(*a*) **Babai.**—(*Income Rs.* 23,426, *Liabilities Rs.* 51,235).—The year 1886-87 closed with a balance of Rs. 5,562-7-4 to the credit of the estate. The rental demand for the year was Rs. 21,915-2-8 and the total demand including arrears for collection was Rs. 27,477-10-0, Rs. 21,354-5-0 of which have been realized, and a sum of Rs. 238-3-0 struck off as irrecoverable,

owing to the ejectment of tenants from their holdings in execution of decrees passed by Civil Courts under Section 72 of the Tenancy Act and their inability either to pay of continue cultivation.

The outstanding arrears amounted to Rs. 5,385-2-0, which is less than last year by only Rs. 177-5-4.

The reason given by the Assistant Manager in charge for the continuance of the heavy arrears is the partial failure of crops. But this cannot be admitted to be the real cause, for if it really were the case, all the other estates would have equally failed in realizing the arrears, which has not been the case. These arrears are largely due to the lax procedure of Gopal Rai, the Assistant Manager, and want of supervision of the Manager.

(*a*) Malhanwara.—(*Income* Rs. 1,046, *Liabilities* Rs. 2,649).—The recoverable balance at the close of the last year was Rs. 620-3-0, the rental of the year amounted to Rs. 1,176-4-0, and the total demand to Rs. 1,796-7-0. Of this amount Rs. 969-9-0 were realized, leaving a balance of Rs. 826-14-0 which is considerably in excess of the outstanding last year. A sum of Rs. 290, which had become irrecoverable owing to the ejectment of a tenant under Section 72 of the Tenancy Act, has, however, been written off. Deducting the above sum of Rs. 290 the recoverable balance was Rs. 536-14-0 which is also in excess of that of last year

The Assistant Manager Gopal Rai who has caught the Manager Court of Wards' inertness is largely to blame for this; but the want of superintendence on the part of the Manager himself is even more largely in fault. The Assistant Manager has been punished and is warned that he will be dismissed if the arrears are not forthcoming rapidly.

Civil suits have lately been brought in some cases to recover the arrears and there is no doubt the arrears will shortly be realized.

(*a*) Raheta.—(*Income* Rs. 3,992, *Liabilities* Rs. 5,184.)—Up to the end of 1886-87 Rs. 6,137-12-9 had been liquidated of the debts, and a sum of Rs. 2,677-10-9 has been repaid this year, leaving a balance of Rs. 5,184-8-6 still due.

At the close of the year the balance to the credit of the estate amounted to Rs. 263-10-5.

The balance would have been much larger, but a sum of Rs. 1,500 was paid to the proprietor to meet the marriage expenses of one of the younger members of the family under the sanction of the Commissioner of the Division. The total rent demand for the year was as follows:—

Cash.

		Rs.	a.	p.
Arrears from last year	...	22	0	0
Demand for the current year	...	2,400	8.	0
Total	...	2,422	8	0

Grain.

		M.	k.	p.
Arrears from last year	...	31	5	4
On account of the year	...	60	36	0
Total	...	91	41	4

The whole of the cash was realized, leaving no outstandings, but of the grain liabilities only 56 manis and 10 kurus were realized, leaving a balance of 35 manis, 31 kurus and 4 pailis.

Of the outstanding arrears, the recovery of 26 manis, 31 kurus and 4 pailis is said to be doubtful, but the matter is being thoroughly enquired into and but for the unfitness of the Manager, Court of Wards, would in the first instance have never accrued, and in the second the question as to how much of the debt was recoverable and how much irrecoverable would have long ago been settled.

As regards the known recoverable balances, the period for payment has been extended up to Baisakh Sanvat 1946, owing to the partial failure of the wet crops, and orders have issued that all recoverable outstandings are to be realized by the above date.

(*a*) **Guraria.**—(*Income Rs.* 383, *Liabilities* Rs. 33,002.)—This estate consists of two villages with a cultivated area of 1,880 bighas. Its management was assumed on the 15th September 1882, under an agreement executed by Khuman Singh and Anoop Singh with the Deputy Commissioner for liquidation of debts, the arrangement being sanctioned by the Chief Commissioner. The liabilities amounted to Rs. 43,469-1-8, of which Rs. 9,169-1-8 have been paid up to the end of September 1887. During the year under report Rs. 1,297-8-8 have been paid on account of the principal and Rs. 2,902-7-4 on account of interest as compared with Rs. 400 and Rs. 1,507 respectively, paid in the previous year. The balance now in train of liquidation is Rs. 33,002-7-4, a portion of which bears interest at 7½ per cent. per annum and a portion at 5½ per cent per annum.

		Rs.	a.	p.
The balance for recovery from last year was	...	1,386	4	3
The rental demand for the year under report was	...	4,326	12	0
The total being	...	5,713	0	3

Rs. 3,714-9-7 of this amount have been realized during the year under report, leaving a balance of Rs. 1,998-6-8 as against Rs. 1,386-4-3 in the previous year. Of this sum, Rs, 567-8-0 are however irrecoverable and will eventually have to be written off. The recoverable balance therefore is Rs. 1,430-14-8. This large outstanding is very discreditable, and in this case also the immediate culprit is Gopal Rai, Assistant Manager. He was warned last year that unless the arrears were largely reduced he would be dismissed, but it has been so much the fashion in the Court of Wards in this district, owing to the very extraordinary indifference to all orders displayed by the Manager Court of Wards to treat such warnings and indeed specific orders with contempt and indifference, that it is not surprising to find that absolutely nothing has been done in the matter. Time has now been given to the 1st March next to recover and reduce the outstandings, and if he cannot do so his services will be dispensed with.

This is another evidence of the gross neglect of duty of the Manager, Court of Wards.

(c) **Timarni.**—(*Income Rs.* 38,448, *Liabilities Rs.* 60,050.)—This estate consists of 21 villages and 48 plots, 16 villages and 12 plots being in this district, and the remainder in the Nimar district.

The latter have, with effect from the 1st November 1888, been put under the management of the Deputy Commissioner, Nimar, with the sanction of the Chief Commissioner.

The estate was taken under management owing to the indebtedness of the proprietor Pandit Balwant Rao Bhuskutte, the liabilities amounting to Rs. 1,13,738-10-11. Proposals are now in train for putting the estate formally under the management of the Court of Wards under Section 7, clause C. IV. of the Court of Wards' Act.

Great efforts have been made to consolidate and liquidate the debts. The unpaid balance at the close of the year 1886-87 was Rs. 76,971-3-2, payable by annual instalments of Rs. 20,000, and this sum was paid during the year, Rs. 16,921-2-0 of the same being credited towards repayment of principal and the rest against interest. The balance for liquidation at the close of this year was Rs. 60,050-1-2.

The outstanding balance at the close of the last year was Rs. 916-15-5½, and the demand for the year on account of rent Rs. 27,866-9-6; the total cash demand was therefore Rs. 28,783-8-11½, and in addition to this the grain demand was 158 manies and 34 kurus which included 4¾ manies outstanding on account of the previous year.

Realizations during the year amounted to Rs. 28,166-6-2, and 155 manies, 29 kurus of grain, leaving a balance of Rs. 627-2-9½, and 3 manies and 5 kurus grain outstanding. These results are satisfactory—the realizations being 97 per cent to the total demand and nearly three-fourths of the outstanding arrears having been realized in addition to total demand on account of the year, with the exception of Rs. 325-7-0.

A sum of Rs. 6,000 was under sanction conveyed in Commissioner's letter No. 625, dated 3rd February 1888, advanced to the Ward for the marriage and thread ceremony of his sister and brother, and this has reduced the balance to the credit of the estate at the close of the year to Rs. 4,545-1-1.

(c). Bordha —(*Income Rs.* 5,047. *Liabilities Rs.* 11,650).—The demand for the year was as follows :—

		Rs.	a.	p.
Arrears from previous year ..	...	1,565	2	4
Rental for the year under report	...	2,865	1	0
Total for collection ...	...	4,430	3	4
Realized ...	...	2,878	7	0
Balance	...	1,551	12	4

It will be seen from the above figures that the demand for the year was realized in whole. In addition to this a sum of Rs. 13-6-0 was realized on account of outstanding arrears. For this, as in the case of other estates, there is no excuse but the gross neglect of the moharrir who, for this and other causes, has been dismissed and the entire absence of care and supervision on the part of the Manager, Court of Wards, in the face of reiterated orders and warnings.

A separate enquiry was made during the year into each of the debts due to the estate, and 20 Civil suits were filed with special sanction after due notice against such debtors as were reported to be solvent and withholding payment. Decrees have been obtained in 19 of these cases, and one is still pending. Four decrees are in execution. The others will be put in execution shortly, if necessary, and in the meantime every possible effort is being made to realize as much as possible out of Court.

(a) Nipania.—(*Income Rs.* 25,732. *Liabilities Rs.* 1,78,866).—Management was assumed on 15th September 1885, owing to the indebtedness of the proprietress, Musst. Sipra Sithani, to the extent of Rs. 1,80,629-11-1.

Of the above amount, Rs. 62,374-4-1 were repaid up to the end of the year 1886-87, leaving a balance of Rs. 1,18,255-7-0 still due, and fresh liabilities were imposed on the estate under decrees of Civil Courts, and otherwise to the extent of Rs. 4,841-12-6, making a total of Rs. 1,23,097-3-6 for liquidation. Of this sum only Rs. 15,702-6-6 were re-paid out of the receipts of the estate, though the amount payable according to the instalments fixed and decrees passed was Rs. 40,072-12-6, and 35 creditors were clamoring daily for payment of their instalments.

It was therefore considered desirable to raise a loan of a lakh rupees, payable by instalments of Rs. 18,000 per annum including interest, with a view to consolidating the debts, the income of the estate being insufficient to pay the instalments originally fixed and the estate being in consequence in danger of being absorbed and sold by decrees of Court.

The Chief Commissioner's sanction to a loan of Rs. 1,00,000 from Rai Bahadur Seth Gopaldas Ballabdas of Jabalpur, bearing interest of 6 per cent per annum being obtained, this sum was received on the 29th August 1888, and since then the claims of thirteen creditors, amounting to Rs 51,157-3-0, have been settled,—Rs. 23,650 of this amount being paid before the close of the year under report.

Of the loan of Rs. 1,00,000, Rs. 48,842-13-0 are still in deposit, and the remaining claims are being enquired into and will be settled shortly.

The realizations amounted to 92 per cent in cash, and 91 per cent in grain, against 95 and 93 per cent to total demand respectively in the previous year.

Debts in cash and grain were realized during the year to the following extent, *viz.*:—

		Rs.	a.	p.
Cash under decrees ...	...	1,569	13	11
Bond debts ...	...	1,724	4	6
Grain, 75 manies 34 kurus and 4 pies value	...	2,078	2	1
	Total Rs.	5,372	4	6

The number of suits instituted on behalf of the estate during the year was over 5, against 22 in the previous year. In four of them decrees were obtained in full, and in one in part.

A new suit was brought against the estate in realizing a claim for Rs. 1,631-10-0, but only Rs. 999 were decreed without costs.

Rs. 962-3-0 have since been paid in full satisfaction of the claim.

In another case a decree was passed by the Judicial Commissioner against the estate for Rs. 7,725-12-6, including costs, instead of Rs. 3,884 decreed by the lower Courts. This decree has been fully satisfied.

The total expenditure excluding debts repaid and interest thereon, amounted to Rs. 11,895-15-8, against Rs. 13,714-15-5 in the previous year.

(a) Futehpur.—(*Income Rs.* 59,912, *Liabilities Nil*) The total rent demand for the year amounted to Rs. 47,486-0-7. The outstanding arrears on account of rent remaining from last year were Rs. 9,575-1-6, which raised the total demand for collection in the year under report to Rs. 57,061-2-1. Of this sum, Rs. 49,110-4-1 were realized within the year, leaving an outstanding balance of only Rs. 7,950-14-0, which gives a reduction of Rs. 1,624-3-6 on the outstanding of previous year, and a reduction under this head from 17 to 12 per cent. A sum of Rs. 672-3-0 out of the Rs. 7,950-14-0 in arrears are said to be doubtful of recovery, while Rs. 1,463-10-6 are irrecoverable.

It may be noted that out of the total outstanding arrear of Rs. 7,950-14-1, so much as Rs. 6,008-14-1 are debitable against the villages situated in the Narsinghpur district, and only Rs. 1,941-15-8 against this district.

The difficulty of managing the villages situated in another jurisdiction was brought to the notice of the Chief Commissioner by the Deputy Commissioner during the year, and the management of the villages situated in the Narsinghpur district has now been transferred to the Deputy Commissioner of that district.

The year closed with a balance of Rs. 1,26,158-13-5 to the credit of the estate. Of this sum, Rs. 95,300 have been invested in Government securities, Rs. 29,348-6-3 are in the treasury, and Rs. 1,510-7-2 are in the hands of the Assistant Manager and the Moharrir for various purposes. The balance to credit would have been larger, but a sum of Rs. 7,100 was spent in the purchase of landed property, with the sanction of the Chief Commissioner (*vide*

Junior Secretary's letter No. 931-S., dated the 27th July last.) A small portion of the balance of Rs. 29,348-6-3 is to be spent in construction of a well, embankments to fields, repairs of the family house, and deepening a tank as sanctioned in Commissioner's letter No. 6411, dated the 8th ultimo, and it is under consideration how the remainder can best be invested. Excluding the invested capital, the balance to the credit of the estate is not yet very excessive, and as any general place of improving the roads in the estate is not of easy execution, owing to the villages being interspersed and mixed up with villages the property of the other Futtehpur Rajahs, who are not in the least likely to co-operate in any schemes of the kind, it is somewhat difficult to find any very extensive outlet for the profitable expenditure of money in this estate.

DISTRICT NIMAR.

(*b*). **Mandhatta.** (*Income* Rs. 34,762, *Liabilities Nil*).—The income rose from Rs. 49,034-1-3 to Rs. 52,679-2-8,—a difference of Rs. 3,645-1-5. This increase is accounted for as follows: On the item miscellaneous including interest on other loans there is an increase of Rs. 4,417-1-1. On debts recovered Rs. 2,771-12-11, a total of Rs. 7,188-14-0. On the item collection of rents a decrease of Rs. 1,226-8-9, and on the item Forests of Rs. 2,317-3-10, a total of Rs. 3,543-12-7, lending a surplus and increased income as stated above. Mr F.A.T. Phillips, Officiating Deputy Commissioner.

Of the disbursements made by the estate under the heading of miscellaneous a large increase has occurred owing to the minor's marriage being celebrated during the year at a cost of Rs. 20,000. Boats were purchased costing Rs. 1,000. Boatmen's perquisites amounted to Rs. 500, Rs. 250 were expended on anniversary ceremonies, Rs. 200 on account of previous year's contribution to Mandhatta Municipality, Rs. 150 increased expenditure on Fair arrangements, Rs. 300 on account of litigation, and Rs. 2,500 on adjustment of preliminary marriage expenses.

Estate improvement shows that Rs. 4,219-9-9 were spent chiefly in the construction of the *baoli* referred to in the last year's report.

The Deputy Commissioner has had an opportunity of becoming acquainted with the minor. He is a bright lad whose prospects would be improved could we get him away From zenana influences. The Deputy Commissioner had an interview with the Ranis on this subject, but found them, especially the elder lady, strongly opposed to such a proposal. At present the Inspector-General of Education has been written to obtain a more efficient master to superintend the boy's education.

(*Remarks by Commissioner.*—The rent collections have not been very efficient, but the inefficiency appears to have been in regard to collections from plots, some of which are not in the Nimar District.

Forests yielded, I understand, an abnormally high income last year. The fall this year is marked.

Considering the large income of the estate, the expenditure on the minor's education is quite insignificant, and I am glad to see that the Deputy Commissioner is taking steps to have the minor properly educated.

I do not quite follow the meaning of the Deputy Commissioner's remark in paragraph IV of his letter which is—

> "I feel some doubt about the correctness of the opinion that because this is an estate controlled under the Minors' Act, therefore the Deputy Commissioner's supervision over its income and expenditure is practically *nil*."

The estate is, I understand, managed under the provisions of Act XL of 1858 simply because at the time when management was assumed these Provinces had no special

Wards Act and doubt was entertained whether the old Court of Wards' Regulation applied to Nimar. With Act XVII of 1885 in force, I see no difficulty in managing the estate under its provisions should they be deemed more suitable than the provisions of Act XL of 1858.

The sole point respecting which there can or may be difficulty is in the control over the Pujaris and the realization of income which depends greatly on the voluntary offerings of worshippers at the Onkar Mandhatta shrines.)

DISTRICT BETUL.

(*a*) Durgadin Patel.—(*Income Rs.* 11,858. *Liabilities Nil*). This is the twelfth year of management by the Court. The Manager is, as has been reported in former years, Din Dyal, husband of the elder daughter of the deceased Durga Din. He has done fairly well, considering that his knowledge of agricultural matters is but small. But practically he is the only selection that could be made, as in the natural course of events he will eventually have the unfettered management of, at any rate his wife's share if not of the whole estate. He is assisted by a Moharrir on Rs. 10.

COL. J. A. TEMPLE, Deputy Commissioner.

The estate consists of the same number of villages as last year, *viz.* nine. The cultivated and the uncultivated area and the sir land also remain unchanged. The total income of the last 12 months amounts to Rs. 11,857-14-8, against Rs. 11,456-6-11 in the year preceding.

The collections made during the year under report (column 7) include the following items :—

		Rs.	a.	p.
Cash realized	...	8,969	2	9
Decrees obtained against Ryots	...	753	3	9
Bonds executed by Ryots and included in other debts	...	413	2	4
Amounts set off against debts due by the estate to the co-sharers of villages and tenants	...	330	7	4
Erroneously shown in excess in previous account	...	3	8	0
Total	..	10,469	8	2

Regarding the arrears shewn in last year's statements there has been special correspondence. The late Tahsildar of Betul, Sher Mohamed Khan, was specially directed by the Deputy Commissioner in August last to go over the rental lists of each village himself with the Manager, and take steps to collect all balances due from solvent tenants. He did nothing himself, but pass the orders of the Deputy Commissioner on to the Manager, the result being that within the year now reported on an insignificant amount was collected. But after the close of the year the Deputy Commissioner's orders have been properly carried out by the present Tahsildar, Narain Subaji.

Rs. 257-10-3 were expended on improvements during the year, against Rs. 81-6-0 in the year preceding. The difference of Rs. 177-8-9 was spent in constructing a new compound wall to the Budnur house.

(*Remarks by Commissioner.*—The arrears stand at Rs. 2,580-5-3, but since the close of the year Rs. 1,351-5-0 of this sum have been realized in cash, the balance Rs. 1,226-0-3 is, it is said, in train of realization and will, it is hoped, be paid in full at the next harvest. I agree with the Deputy Commissioner that "it was not advisable to press the tenants further at a "time when the crops were all in the ground.")

(*a*) Bana Bai—(*Income Rs.* 940. *Liabilities Rs.* 57). The estate has now been under the Court of Wards for nearly 27 months.

As reported last year the award of the arbitrators in regard to the division of the estate between the Wards and other heirs was filed on the 12th December last, but it was objected to and consequently action was delayed until the Deputy Commissioner had an opportunity of consulting the arbitrators personally. A careful enquiry showed that they had made the best and fairest division possible under the circumstances, and the Deputy Commissioner was able to accept it unreservedly.

Musstt. Bana Bai, the wife of the deceased Gunpat Rao Kalia, and mother of the two minors, represented to the Chief Commissioner that the award of the arbitrators was not a proper one. But the Chief Commissioner on consideration of the facts declined to interfere, *vide* Junior Secretary's No. 534 S, dated the 10th May 1888.

The total income amounted to Rs. 959-2-10 this year, against Rs. 1,933-1-11 during the preceding year, showing a decrease of Rs. 973-15-1. But the former year's figures included a repayment of a deposit of Rs. 1,000, consequently the real difference is unimportant.

The rent realized during the year amounted to Rs. 687-4-0, against Rs. 312-10-0 in the year preceding.

The increase of Rs. 374-10-0 is due to the fact that only one village was under the management of the Court of Wards last year, while this year there are three.

The rental, however, includes realizations of the June kist only, as possession of the villages was made over to the Court of Wards in May last.

At the end of the year there was a cash balance of Rs. 556-14-8, of which Rs. 400-13-11 are in the Treasury, and Rs. 156-0-7 in the hands of the Manager.

(*Commissioner's Remarks.*—The estate is, I venture to think, incorrectly shown in the printed Resolution of 1887 as Barma Bai's estate (her name seems really to be Bana Bai or Bema Bai.)

This estate really belongs to 3 minors, *viz.*—

1. Krishn Rao
2. Baikunth Rao } sons of Ganpat Rao.
3. Dasrath Rao

It is true that in some portions of the correspondence only 2 minors are spoken of, but there really were 3.

DISTRICT CHHINDWARA.

(*b*) **Pagara.**—(*Income Rs.* 16,229, *Liabilities Nil*). The marriage of the minor sister was celebrated in May 1888, at a cost of Rs. 2,409-7-2, the amount sanctioned for this purpose being Rs. 2,500, in Junior Secretary's No. 255 S, dated 13th March 1888. During the year under report the income of the estate from different sources amounted to Rs. 16,229-9-4, and with the opening balance of Rs. 18,231-7-11, made a total of Rs. 34,461-1-3, and the expenditure was Rs. 11,027-10-1, the balance at the close of the year being Rs. 23,433-7-2, the whole of which amount is in the Government Treasury. The detail of the capital invested is as follows:— COL. H. M. REPTON, Deputy Commr.

		Rs.	a.	p.
In Government Promissory Notes	...	10,184	12	8
Stock Notes now being transferred to Government Promissory Notes	...	2,050	0	0
Savings Banks deposits	...	1,000	0	0
Total	...	13,234	12	5

The house at Pagara will shortly be completed. During the year under report the house was inspected by Mr. Meehan, Sub-Engineer, and the work was reported by him to be of good quality. The construction of the well is in progress, and it is hoped it will shortly be completed. The roads from Chindwara to Pagara, and Ganawari, Dhusawani and Bankheri have been repaired during the year. The minor, Drigpalsha, enjoys fairly good health, and continues to study at the Raj Kumar College, Jabalpur.

(*b*) **Mohtur.**—(*Income Rs.* 1,336, *Liabilities Nil.*) The Mukasdar Partapsha has now obtained majority, being 21 years of age, and is capable of managing his own estate. There appears therefore no necessity for keeping it under management any longer. No liabilities are due to or by the estate, and application was submitted to this office in No. 2859, of the 11th idem, for sanction to discontinue management.

(*Remarks by Commissioner.*—The Chief Commissioner has sanctioned the relinquishment of this estate, *vide* Junior Secretary's No. 1477 S., dated 2nd November 1888, and orders have issued accordingly to the Deputy Commissioner.)

(*b*) **Koda Dongri.**—(*Income Rs.* 951, *Liabilities* Rs. 1,000.)—The amount of Rs. 615, shown as receipts under the head "Miscellaneous," was from the sale of cotton and grain, and Rs. 1,000 has been borrowed by the minor's sister who looks after the estate, to meet the expenses of the minor's marriage.

I would note that there are no records authorizing the minor's sister to incur any debts, but it is said that the amount was borrowed under the verbal orders of the late Deputy Commissioner, Colonel Vertue, for the minor's marriage which was also, it is said, verbally sanctioned by him.

The proprietor of the estate is now 18 years of age, and has applied that his estate be restored to him.

This I have recommended, as there appears to me no necessity for keeping the estate under Government management.

(*Remarks by Commissioner.*—Under Rule V of rules sanctioned by the Chief Commissioner for Court of Wards estates the loan of Rs. 1,000 required the Commissioner's sanction.

The Deputy Commissioner has been asked to report further on the matter. I held that the proprietor of Koda Dongri had not attained his majority of 18 years of age, as I considered that Section 26, Act XI of 1858, have been modified by Section 3, Act IX of 1875.

(*b*) **Jamunia.**—(*Income* Rs. 2,493, *Liabilities* Rs. 3,625.)—The greater part of the arrears of rent reported last year which was due from the minors on account of the land held by them for their maintenance has been recovered. The land nominally held by minors for their own maintenance has been leased to cultivators, sir rights being reserved, and a cash allowance of Rs. 33 per mensem has been fixed for their personal expenses in lieu.

Nothing has been spent on the improvement of the estate, a sum of Rs. 79-8-0 has, however, been expended in sinking a well on the boundary of Manzah Jhiri which is on the Narsinghpur road for the convenience of travellers.

(*Remarks by Commissioner.*—Nothing can be done for the improvement of this estate as the estate is still in debt. The arrears on account of current demand are not heavy, and the collection on account of former arrears have been very satisfactory.)

DISTRICT WARDHA.

Col. T. A. Scott, Deputy Commissioner.

(*a*) **Mandgaon.**—(*Income* Rs. 20,258, *Liabilities Nil*). The financial position of the estate is as follows :—

		Rs.	a.	p.
Opening balance	...	16,541	6	4
Collection during the year	...	20,258	4	11
Total	...	36,799	11	3
Expended	...	14,640	12	10
Interest	...	10,436	11	3
Total	...	25,077	8	1
Cash in hand	...	11,999	9	2
The investments now are—				
In Government securities	...	30,000	0	0
In other loans	...	1,967	5	9
Total investments	...	31,967	5	9

Besides this, grain debts to the extent of 3,138 maunds approximately valued at Rs. 6,276 are due to the estate, and 791 maunds valued at Rs. 1,582 are in store.

The revenue has been fairly well collected, but the balance is larger than it should be. It is feared that this is due to the incapacity of the manager. The estate will be visited shortly and enquiries made as to the cause of the heavy balances which have remained due.

Baliram Singh, one of the Wards, has attained majority and is now employed in managing the estate under my orders. His allowance has also been increased to Rs. 100 per mensem. The other two boys are being educated at the Mandgaon school.

(*Remarks by Commissioner*:—The condition of Mandgaon may be said to be flourishing with a large annual rental and free from all liabilities, it is in a position to become still more affluent. Nothing however has been expended in the improvement of the estate. The Deputy Commissioner promises to consider this matter. In the matter of rent collections from only three villages were the rents collected in full, all the others leaving balances uncollected, and although on the whole the rents have been collected fairly well, *viz.*, 91·5 of the demand for the year under report, the arrear collections seem to have been much neglected, only 30·5 per cent having been collected.)

(*a*) Selu.—(*Income* Rs. 1,443, *Liabilities Nil*). The total demand Rs. 1,335-5-6 and Rs. 50 on account of arrears have been collected. The estate fund amounts to Rs. 2,482-15-3, details of which are furnished below:—

		Rs.	a.	p.
Government securities	...	2,000	0	0
Cash in Government treasury	...	482	15	3
Total	...	2,482	15	3

The Ward Vishweswar is 18 years old and he has been leading an idle life for some time past. The Deputy Commissioner proposes that he shall be placed in charge of his estate.

(*a*) Moe.—(*Income* Rs. 4,283, *Liabilities Nil*). A new house has been sanctioned for the Ward at a cost of Rs. 2,538, of which Rs. 1,200 have been spent. The work will be finished during the current year. The rents have been fairly well collected. The Ward is studying at the Zila school at Wardha. He is inclined to be lazy.

(*Remarks by Commissioner*.—The financial condition of Moe is good, it not being indebted and having an uninvested balance of Rs. 3,187-11-3, Rs. 2,000 have been invested in Government securities and Rs. 1,200 in estate improvement.)

(*a*) Hingni.—(*Income* Rs. 6,550, *Liabilities* Rs. 7,758). The financial position of the estate is as follows:—

		Rs.	a.	p.
Opening balance	...	2,451	7	3
Collections during the year	...	6,549	14	7
Total	...	9,001	5	10
Expended	...	4,574	9	3
Paid debt	...	4,446	5	9
Total	...	9,020	15	0
Cash in hand	...	302	8	0

Considerable progress was made during the year under report in reducing debt. This was possible because the year commenced with a good balance and some money was realized by the sale of moveable property and live stock. The village of Hingni was burnt down, and the Ward's house partially destroyed. Money will have to be spent on this. Proposals will be submitted after the place has been visited by the Deputy Commissioner. The Ward is quite an infant and lives with his mother at Hingni.

(*Remarks by Commissioner.*—Rapid progress has however been made in clearing off liabilities. Of a debt of Rs. 14,499-8-7, there remains but Rs. 7,758-2-3 for liquidation, which will be accomplished in about 2 years. This estate has a small uninvested balance of Rs. 302-8-2. The collections of rent shows a percentage of 90·8 on the demand.

DISTRICT NAGPUR.

Col. C. H. GRACE, Deputy Commissioner.

(*b*) Khadgaon and Bhatra.—(*Income* Rs. 2,792, *Liabilities Nil*). This is the only estate which by the order of the Civil Court under Act No. XI of 1858 (Minors Act) has remained under the management of the Collector.

It is now under contemplation to transfer it to the regular management of the Court of Wards, and a request will accordingly be made to the Chief Commissioner to declare the minor to be a Government Ward under the Wards Act. Rauoji Naik is a lad of 16 years. He enjoys good health and has made fair progress in his studies. He was examined by the Manager on 30th September last and was reported to have passed a good examination in the subjects which he studied.

(*a*) Chachur.—*Income* Rs. 26,401, *Liabilities* Rs. 1,00,389. The income of this estate has increased very much during the last 4 years. The rent collections have been good, as will be seen from the following figures :—

Demand.

			Rs.
Current	...	...	13,103
Arrears	...	...	329
		Total ...	13,432

Collections.

Current	...	...	13,058
Arrears	...	...	267
		Total ...	13,325

Rs. 411 were spent in estate improvements. This sum includes Rs. 200 spent in sinking a well at Titur, a large village belonging to the estate, where the want of a well was very much felt by the residents who subscribed Rs. 109 on this account. "In spite "of the fair allowance for his support Ahiloji Rao has been incurring fresh debts and "alienating all the property retained by him either by sale or mortgage. The family house "has been mortgaged for the paltry sum of Rs. 500. Another family residence has been "sold, jewelry and clothing aggregating Rs. 10,000 in value have been mortgaged for "paltry sums. Decrees have been passed for loans aggregating Rs. 2,391, in two cases property "has been attached and sold, and in another case attachment has been taken out against "the valuable jewelry in the custody of the Court of Wards. Ahiloji Rao has also "contracted a new debt of Rs. 8,000 and, with the money borrowed, has purchased a "village in the name of his concubine and illegitimate son, and lastly by tolerating the "unseemly conduct of his concubine towards his sons he has forced the elder son with his "wife to take shelter with the Bhonsla family." A full enquiry regarding these and other debts was ordered by the Commissioner, but the enquiry has not yet been completed owing to the difficulty experienced in getting the creditors to declare their claim. Ramchandra

Rao, as already stated, has separated from his father and receives an allowance of Rs. 60 per mensem from him for his support. He has expressed a wish to enter a Cavalry Regiment of the Bombay Army as a Native officer, and as it is desirable to remove him from the bad example of his father and to train him to some useful and honorable career, correspondence is in progress with a view to effect being given to his wishes.

(*Remarks by Commissioner.*—As regards the estate of Ahiloji Rao, much has been done to pay off the liabilities, but fresh debts were incurred to a considerable extent, and owing to the recklessness of this ward, it was at one time thought advisable to recommend a relinquishment of Government management, but in consideration of his son's future prospects such a course was not adopted, and Ahiloji Rao was warned that if he continued in his bad behaviour severe measures would be taken.

(*a*) Bhonsla estate.—*(Income Rs. 3,44,897, Liabilities Nil).* The total rental demand and collections were as follows :—

Demand.

		Rs
Current ...	...	1,69,799
Arrears ..	...	18,739
	Total ...	1,88,538

Collections.

		Rs.
Current ...	...	1,65,387
Arrears ...	...	11,238
	Total ...	1,76,625

The recoverable arrears amount to Rs 8,849 or 4·6 against 8·7 in the previous year. Of this sum Rs. 3,634 are on account of villages in the Berars and Bombay Presidency. The collection of rents of the villages in the Central Provinces is very satisfactory, the percentage of recoverable arrears on the total demand being 3.

Granaries.—It was represented in the report for the preceding year, that the quantity of grain had dwindled down from 9,885 khandies in 1,294 Fusly, to 6,222 khandies in 1296 Fusly; but, during the year under report, the quantity reached 8,864 khandies. This fact shows the importance of constant attention being paid to this source of income, which is very remunerative. We have had an increase of 2 642 khandies of grain during the year, which at the lowest rate of Rs. 8 per khandi will bring in an income of Rs. 21,136. Mr. Jacob, an Inspector under the Court of Wards, was transferred from Bhandara to Nagpur during the year, because his long experience and extensive knowledge of horticulture specially fitted him to supervise the gardens of the estate. Unfortunately he could not do much during the year under report, as he was in charge for only a portion of the year. The receipts are a little in excess of those for the preceding year, while the expenditure is somewhat less. The excursions to Bombay and Upper India were very much enjoyed by the members of the Bhonsla family and their health was very much improved by these trips. Raja Raghoji Rao is constitutionally weak and unhealthy. He has been suffering a good deal lately—so much so that Dr. Barter found it necessary to perform an operation on him. This afforded him temporary relief, but it is to be feared that his complete recovery will be a tedious affair. The most important event which took place in the Bhonsla family during the year under report was the marriage of Parbati Bai, sister of Raja Raghoji Rao. She was married to the son of a brother of H. H. Rani Mhalsa Bai Saheb, relict of H. H. the late Maharaja Malhar Rao Gaikwar of Baroda. The next event of importance in the family was the Munj or thread ceremony of Raja Laxman Rao, which was also performed during the year.

It is satisfactory to note that the young Rajas are making satisfactory progress in their studies under the able tuition of Mr. Kneller, who takes great personal interest in all that concerns the welfare of his pupils, for not only does he superintend them, &c., but he also

joins them in all manly sports and exercises. There is every hope that good results will attend the arrangements made by the Chief Commissioner for the education of the young Rajas.

(*Remarks by Commissioner.*—The Bhonsla estate has during the year under report made considerable progress financially, the balance in hand having risen from Rs. 34,921 to Rs. 59,083 while Rs. 82,905, were invested in loans—and this notwithstanding that the personal expenses were unusually heavy.)

(*a*) Tharsa.—(*Income Rs.* 15,334, *Liabilities* Rs. 16,152.) The total receipts for the year under report were Rs. 15,334 against Rs. 19,209 of the previous year. Owing to the death of Gaja Bai Saheb, adoptive mother of Ramchandra Rao Sirke, the estate lost an income of of Rs. 7,179 by the stoppage of the Political pension; excluding this amount from the accounts, the income amounted to Rs. 14,717 against Rs. 12,628 of the last year. The demand for the year under report shows an increase of Rs. 65 over that of the past year. With the arrears of the previous year it amounted to Rs. 9,737, of which Rs. 9,714 were recovered, leaving a balance of Rs. 23 unrealized at the close of the year. Most of the villages of this estate lie within Taluka Tharsa, the demand of which is Rs. 7,644. It is satisfactory to notice that the whole of the demand of rents of this estate was recovered without any recourse being had to law, and good credit is due to the Kamdar for these prompt collections.

The conduct of Ramchandra Rao Sirke is unsatisfactory. During the year under report his allowance was fixed at Rs. 200 per month. On one or two occasions he applied for additional sums to meet his expenditure but they were refused. He is a grown up lad of extravagant habits and does not hesitate to incur debts. He incurred some more debts during the year, and an enquiry is being made into the matter through the Tahsildar of Nagpur.

(*b*) Sausthanik Estate.—*Income* Rs. 1,24,440, *Liabilities Nil.*) The income of this estate has been steadily increasing during the last three years, as will be seen from the following figures :—

Year.		Rents.	Other income.	Total.
		Rs.	Rs.	Rs.
1885-86	...	58,279	59,743	1,18,022
1886-87	...	58,362	65,198	1,23,560
1887-88	...	58,839	65,601	1,24,440

The efficiency of the rent collections is shown below :—

Demand.

		Rs.
Current	...	57,811
Arrears	...	3,041
Total	...	60,852

Collections.

		Rs.
Current	...	57,128
Arrears	...	1,711
Total	...	58,839

leaving a balance of Rs. 2,013, of which Rs. 935 are recoverable.

These results are satisfactory. Rs. 3,797 were spent on the estate improvements and Rs. 12,000 were invested in Government securities. Raja Azamshah, I regret to say, did not enjoy very good health during the year. He suffered very much from an attack of opthalmia, and at one time it was feared that he would lose his sight; but under the treatment of Dr. Barter and his Assistant Mr. Daji Ramchandra, the young Raja recovered very fast, and I am glad to be able to say that he is now in the enjoyment of good health.

(a) Bori.—(*Income Rs.* 5,186, *Liabilities Nil.*) The total demand with arrears of past year amounted to Rs. 2,500, of which Rs. 2,440 were collected and Rs. 43 struck off as irrecoverable, thus leaving a balance of Rs. 17 in train of collection. The cost of management amounted to Rs. 346 and was within the sanctioned figure, *viz* : Rs. 470, showing a percentage of 6·6 as against 7·2 in the previous year. During the year under notice the estate was able to invest Rs. 1,000 in the purchase of Government Promissory Notes, and I have every reason to hope that if the estate continues to improve, as it does at present, there will be more sums available for such investment, and by the time Doman Singh attains his majority a large amount of cash will be at his credit. The Ward Doman Singh is a boy of 12 years. He does not appear very robust, but he has not suffered from any illness during the year. He has been attending the village school at Bori. He was examined on the 8th of October last by the Manager who considers that he has made fair progress in his studies. He has not yet reached that age when he might be brought to Nagpur, in order to receive the benefit of a middle school education.

(a) Peta Ismailpur.—(*Income* Rs. 1,775, *Liabilities Nil.*) The receipts of this estate amounted to Rs. 1,775 against Rs. 2,308 of the past year. The remarkable falling off appears to have occurred under the head miscellaneous. The total expenditure shows a remarkable increase as compared with the expenditure of the preceding year. This owing to a sum of Rs. 2,000 having been invested in Government securities. The ward represents that he has attained the age of 21 years and is desirous of being put in charge of his estate. He appears to be intelligent, but as he is very young it would, I think, be premature to entrust him with the management of his estate. He will continue to be under the Court of Wards until he is in a position to superintend his estate efficiently. Sham Rao was examined by the District Manager on the 4th October 1888, and he passed a very creditable examination in the Vernacular. Being a grown up lad, he does not care to prosecute his studies any further.

(a) Krishna Rao Gujar.—(*Income* Rs. 21,778, *Liabilities* Rs. 59,895.) The rental demand and collections were as follows :—

Demand.

				Rs.
Current	...	...	...	14,106
Arrears	...	...	...	2,664
			Total	16,770

Collections.

Current	...	...	...	13,560
Arrears	...	...	...	1,589
			Total	15,149

The recoverable arrears amount to Rs. 799, and considering that the year under report was the first year of management the results are satisfactory. The cost of management Rs. 784 is much less than what has been sanctioned for the purpose. In the report for the preceding year, it was remarked that Krishna Rao had promised to compound with his creditors and thus reduce his debts to Rs. 60,000, paying anything over and above that sum from his private income. When full and detailed enquiries were made, it was found that his debts amounted to no less than Rs. 70,000 odd. Of this sum, Rs. 67,235 were paid in cash and Rs. 2,773 were remitted by the creditors. Krishna Rao first failed to file a true schedule of his liabilities, and while negotiating for the management of his estate by the Court of Wards he incurred fresh debts by standing security for friends and in indulging in extravagant building operations. He also failed to surrender his jewelry when his estate was regularly taken over; for he had already mortgaged them which necessitated suits being filed for their recovery. The jewels, I may note, were subsequently recovered from the mortgagees.

Mr. J. W. Tawney, Deputy Commr.

(c) Darekasa.—(*Income Rs.* 1,668, *Liabilities* Rs. 3,012.) This estate comprises 8 whole villages and one-half village. The tract consists chiefly of hill and forest and the rent roll is small. The terms of the lessees given to Lakshmi Chand, contractor, having expired, the whole of the forest is now under management, with the exception of that of Toyagondi over which the lessee of the village claims to have control—a claim to dispute which preparations are being made.

The Ward is not a very satisfactory person to have the management of; he has been contracting debts since the estate was taken over by Government, which has involved us in litigation during the year, and is generally more obstructive than useful. He has for his maintenance the kamath of two villages, But a further sum of Rs. 50 was allotted him during the year for expenses of cultivation, and Rs. 50 were given for performing the obsequies of his mother who died in December last.

The amount of uncollected rent is Rs. 128-8-0; of this, a sum of Rs. 60 is due from Ramlal for certain fields which were held by him on rent.

(*Remarks by Commissioner.*—Nothing has been done during the year to reduce the liabilities of Darekasa, nor is any explanation given of how under such circumstances the Deputy Commissioner expects to clear off the debts within a reasonable time.)

(d) Kamtha.—(*Income* Rs. 79,268. *Liabilities Nil*) The income from all sources during the year was Rs. 79,336-7-4. The uninvested opening balance was Rs. 6,595-11-0—a total of Rs. 85,932-2-4.

The estate consists of Kamtha proper, Warad and Deorikishori. Of these the two former are fertile plains, whereas the latter is mostly forest.

The tanks, in most of the villages held under direct management, were partially put in repair last year at an expense of Rs. 3,687-14-0, and repairs to the embankments of two more tanks have been carried out this year at a cost of Rs. 802-10-3; also a sum of Rs. 584-8-0 has been spent on finishing the repairs commenced last year,

There are still several embankments to be repaired and in the case of one village, Pindkipar, a considerable outlay will be necessary, as the tank has not held water for many years.

The minor, Lattaria Bhau, is 15 years old. He lives at Bhandara and attends the zillah school. He is making fair progress in his studies, but seems averse to athletics; he has enjoyed good health. His tutor has looked after him well during the year.

The balance of uncollected rent at the end of the year was Rs. 5,554-9-10, of which a sum of Rs. 1,502 has been collected during the past two months.

Some old balances were realized during the year, as the rice havest was good.

(*Remarks by Commissioner*:—There is some probability of a portion of the large balance of the Kamtha estate being utilized in a loan to the Ward's uncle on the security of a mortgage of 16 villages.)

(e) Gangajhari—(*Income Rs.* 2,915, *Liabilities Nil*).—The income is chiefly derived from forests, the amount from this source being Rs. 2,180-1-7 and that from rents being Rs. 271-4-0.

The minor is 19 years old and has left school; he does not promise to turn out very well and it may possibly be necessary to bring him under closer supervision than that to which he is subjected by his relatives at Gangajhari. The minor has the "Kamath" of Gangajhari for his maintenance; he also gets a sum of Rs. 20 per mensem besides.

(*a*) Salekasa.—(*Income* Rs. 808, *Liabilities Nil.*)—The income from all sources during the year under report has been Rs. 808-6-0. Of this Rs. 311-15-0 are revenue from forests, viz: from sale of grass, firewood and bamboos; timber not being allowed to be cut at present. The minors are aged 11 and 13 respectively. They are taught at the village school at Amgaon, but are not very regular in their attendance, as their home is close by. It is therefore intended to remove them to Tirora, where the temptation to play truant will be less. They have enjoyed good health during the year.

(*a*) Palkhera—(*Income* Rs. 3,832, *Liabilities* Rs. 8,000).—It will probably take about 8 years to free this estate from debt; there are no improvements urgently required.

The arrears of rent in Palkhera khas are due from cultivators who have left for the Berars. It is a poor country and if much pressed tenants quickly emigrate. In the case of Bamni, Murdoli, and Ghumara the sub-proprietors are much involved and find difficulty in meeting their obligations. It has been found necessary to sue the proprietor of Bamni and Murdoli.

DISTRICT BALAGHAT.

Mr. R. H. Craddock, Officiating Deputy Commissioner.

(*a*) Mau—(*Income* Rs. 13,623, *Liabilities Nil.*)—Fresh leases were granted for 4 villages during the year under report, and 14 villages are under khalsa management, rent arrears were Rs. 352 in certain villages, out of which Rs. 31-15-6 have since been realized. These arrears are somewhat larger than those of last year, but all of them are recoverable, and the amount is not a serious one. Funds are available in this estate for the construction of a new tank at Lamta to perpetuate Bhikajee Naik's memory as was proposed in previous year's report. As the scheme is one of magnitude, plans and estimates prepared by this department were submitted to the Public Works Department through the Commissioner of the Division for an expression of opinion on the work to be carried out. It was therefore decided that the spot was to be examined personally by an officer of the Public Works Department. The minor has been ill for the past few months, but continues to attend school with regularity.

(*b*) Kirnapur—(*Income* Rs. 10,243, *Liabilities* Rs. 1,151)—All the villages are managed under the leased system except Kirnapur and Jamly. The large balance of Rs. 2,531-4-0 is due from the zamindar's uncle Laxman Bhao. The amount was not realized pending disposal of the Civil case referred to in last year's report. It has since been disposed of and steps are being taken to realize the arrears by Kham tahsil of the villages. During the year under report Rs. 1,863 were remitted to Seth Gokuldass including interest. It will be seen that the estate is itself prosperous and will soon be clear. The estate should not be relinquished for a long time to come, as Hira Bapu will be utterly unfit to perform the duties of an independent zamindar.

(*Remarks by Commissioner*:—The Kirnapur estate had at the close of the year only Rs. 1,151-2-9 to pay off in full liquidation of all its liabilities which will doubtless be paid during the current year.

(*c*) Hatta—(*Income Rs.* 27,031, *Liabilities* Rs. 29,614).—The Zamindar Ganpat Rao died on the 22nd January 1888, and was succeeded by his brother Mahipat Rao, the co-sharer. The former having incurred fresh debts since the assumption of the management by Government was directed to apply to be declared disqualified under the Central Provinces Government Wards Act, but before he could do so, he expired. Mahipat Rao, the successor, at first applied and was declared disqualified by the Chief Commissioner, but subsequently has gone back and is unwilling to allow the estate to be taken under the Court of Wards. The Chief Commissioner has therefore allowed him 4 months' grace up to 15th December 1888 next, with the distinct understanding that the management will be thrown up on the aforesaid date, unless on or before that date he unreservedly accepts the arrangements of the Court. Mahipat Rao, the zamindar, is taking active steps to raise the money to pay off the loan from Gokuldass.

(*Remarks by Commissioner*:—In regard to Hatta, considering that the estate has been under Government management for the past 7 years, the progress made towards the liquidation of its debts has been very slow. This is mainly the result of the profligacy of the late zamindar Ganpat Rao, who, notwithstanding that his estate was under the Court of Wards, was constantly incurring fresh debts, but since his death and the succession of his brother, matters have much changed and the present holder contemplates managing his affairs himself by paying up the present liabilities. The estate yields a handsome income and there will be no difficulty in ridding it of its liabilities in 5 years, if the management continues under the Court of Wards.

(c) Bhadra.—*Income* Rs. 16,902, *Liabilities* Rs. 34,301. Fyzuddeen Khan, the co-sharer of the zamindar, applied to me to arrange for settlement of debt of Rs. 12,000 in which he was involved and agreed to pay for liquidation of these debts Rs. 2,000 annually from the money allowance which his brother makes him annually from the profits of villages allowed him for maintenance. The extravagant habits of Fyzuddeen seem to be on the increase, and he does not bear a good repute. But as Fyzuddeen has been repeatedly warned in the matter, it is not a case in which any particular clemency is required. If as proposed the brothers can arrange the matter with the creditors by this annual payment of Rs. 2,000, well and good, but if not they must extricate themselves as best they can, Government being responsible only for the loan from Gokuldass and they have been informed accordingly. Rents were collected in full from the majority of the villages and the results are on the whole satisfactory. The amount paid to Seth Gokuldass was Rs. 6,500 including interest (original Rs, 3,590-3-6 interest Rs. 2,909-12.6) reducing the original debt to Rs 34,300-9-9 Rs. 1,000 were paid to the Zamindar for construction of 8 new tanks at Kulpa, and for repairs in the villages, adjoining the aforesaid village. The work seems to have been well done for the money and the tanks afforded considerable help to the cultivaters for both kharif and rabi crops during the current month when rain was much wanted. The state of the tenants of the zamindari seems, judging from the collection of rents, to be good, but some complaints of excessive "begar" exacted from them by the zamindars have been received, which will be inquired into in the ensuing camping season.

DISTRICT RAIPUR.

COL. BEYOR THOMAS, Deputy Commissioner.

(b) Khuji—(*Income* Rs 14,080, *Liabilities Nil*).—During the vacation in December last the Ward was taken to Bombay by the Superintendent of the school, and on the latter's recommendation a horse was purchased for him there at a cost of Rs. 250. As a reward for passing the Middle school examination, a new and handsome rifle at a cost of Rs. 675, upon which Niazuddin Khan had set his heart, was also obtained from Messrs. Radha and Company, Calcutta. This expenditure was approved of by the Commissioner. The whole of the land revenue as well as the Excise and other fixed demands falling due within the period reported on have been collected without any difficulty. The increase of Rs. 420-11-9 visible in the forest income, is chiefly due to the fact that a paid vendor of Forest licenses on Rs. 7 per mensem was located at Umarwahi during the year under report, whereby much facility has been afforded to people of the surrounding villages for obtaining their licenses for forest produce close at hand. They had formerly to go all the way to Khuji, a distance of 12 miles, to take out licenses. The pound moharir at Markakasa also issues forest licenses for which he receives commission at Rs. 3 per cent of the income from sale of licenses. The question of wood, &c., allowed to the people of the estate free for their home consumption as "nistar" was also carefully considered by the Deputy Commissioner during the year under report. A fixed scale was laid down per plough, and this scale was approved of by the Commissioner, and then revised lists of such requirements were prepared after careful enquiry and verification both by the District and Assistant Managers. Free "nistar" passes have been supplied and no man is allowed to take anything out of the forest without a pass. Under the Commis-

sioner's recent orders it has been arranged that free "nistar" passes will in future be allowed only for one plough per household, and that all wood and produce taken in excess of that amount will be charged for at the rate prevailing in the zamindari, a still further increase in the forest income during the current year is therefore anticipated. A dispensary has at last been established at Khuji, the services of a third class Hospital Assistant having been placed at the disposal of the Deputy Commissioner in August last.

For want of the services of a professional man, much could not be done in the way of public improvements. The works proposed to be carried on are all important ones likely to cost thousands of rupees. Although an application for the services of an overseer was made in February 1888, one could not be found available until the end of July 1888. One Shyam Lall was appointed as overseer on a salary of Rs. 50, with Rs. 10 per mensem as horse allowance. A plan and an estimate have also been prepared under the supervision of the Executive Engineer, Eastern Division, for the young zamindar's new house at Khuji at a cost of some Rs. 10,000. The subject of constructing irrigation tanks in the estate to save a part of the rice crop in a season of scanty rain-fall has been under consideration. Proposals to construct such tanks have been submitted to the Commissioner for sanction. The last 5 years' settlement of this estate expired on the 31st March 1888, and as it is understood that it was not possible at that time to collect statistics for a new settlement owing to settlement work in other zamindaris, the old term had to be extended for three years, that is, up to 31st March 1889.

Settlement operations were commenced in this estate on the 1st November 1887 under the District Manager's supervision. The area to be measured was 38,560 acres, 3 roods, 7 poles, and considering that it is for the most part covered with rice cultivation, consisting of a very large number of rice fields, it is considered that the survey has been completed in a fair length of time (8 months). This work was estimated to be finished in six months, but the work of reproducing the boundaries of each village on paper, which took one Inspector and three patwaris 3 months to finish, had not been taken into account. Two Inspectors and 10 patwaris performed the work, of whom one Inspector on Rs. 35 per mensem was sent back to the Settlement Department on the 1st July 1888, as his services were no longer required after the survey was over.

Since then the maps have been fairly inked up and the fields numbered. Jamabandis have been written up and areas taken out. Vernacular misls of each village have been prepared, and the Jamabandis have been compared with the khasras. The work of totalling the areas of villages is about to be completed. Fair copies of the records will then be made by contractors, and this will not take much time. The District Manager went out and performed the attestation work regularly in all the 33 villages. On the whole, the work has been pushed on as fast as possible.

(*c*) Barbaspur.—(*Income* Rs. 7,364, *Liabilities* Rs. 10,282).—This estate has now been managed by the Deputy Commissioner for 8 years. When its management was assumed, the liabilities amounted to Rs. 25,000 (principal). These have since been cleared to the extent of Rs. 35,023-6-5 including principal and interest, the usual instalment of Rs. 2,500 having been repaid to the Khuji estate during the year under report. The estate is now indebted to the extent of Rs. 10,282-1-2. The increase in the Land Revenue is due to the revised jamas sanctioned at the recent 5 years' settlement which was made during the preceding year. There has been an actual increase of Rs. 822-14-10 from all sources in the income for the past year as compared with that of the preceding year. This increase is chiefly composed of the excess income under the heads "Land Revenue" and "Cattle Pounds" during the past year. The expenditure on Public Works is smaller than in the preceding year, for the simple reason that the expenditure for 1886-87 included the cost of a station house building, while during the past year no large works were taken up in hand. A sum of Rs. 355-13-10 was, however, expended during the past year. New Police lines, which had been previously sanctioned, were constructed, Police buildings were repaired, and a sum of Rs. 100 was spent in repairing the young zamindar's house during the year under report. The efforts of the Dis-

trict Manager to establish a school at Barbaspur partly supported by private subscriptions and partly by estate funds have been successful during the year under report. In May last he raised a half yearly subscription of Rs. 29-4-0 which was supplemented by an equal grant from the estate funds. A teacher was appointed on Rs. 8 per mensem, and the school was actually started on the 7th June last. It is attended by 38 pupils. The average attendance for the months of August and September 1888 was 33, being 87 per cent. Most of the boys, however, belong to the families of the zamindar's relatives. Toran Singh, the young zamindar, has lived at Barbaspur during the past year. He was, as reported in the preceding year, allowed to return to his home at Barbaspur as he had exhibited a great reluctance to attend school at Raipur. For some time he was ill with fever during the past year but on the whole his health has been good. He is aged 23.

No complaints reflecting injuriously upon his character have been received during the past year.

(c) Thakurtola (*Income* Rs. 10,551, *Liabilities* 3,488). A sum of Rs. 4,200 was repaid to the Bindra Nawagarh Estate during the year under report, although the fixed annual debt instalment was Rs. 2,200. A sum of Rs. 2,000 was thus paid in excess of the fixed instalment with the view of clearing off the debts as soon as possible. The Estate was able to pay this extra amount this year owing to the considerable increase in its income. It is hoped that this estate will be freed from debt during the current year.

This is one of the three* estates managed by the Court of Wards in this district in virtue of agreements with their proprietors. Arrangements to formally disqualify them under the Court of Wards Act from incurring fresh loans as laid down in the Chief Commissioner's Resolution passed on the reports for the year 1886-87 are being made.

*Thakurtola, Barbaspur, Raitum.

The zamindar has applied that now as the income of the estate has considerably increased and the debts have been greatly reduced, a suitable building for his residence may be constructed, and that a Dispensary may be established. There is no Dispensary in any of the neighbouring estates of Chhuikhadan, Gandai, Parpodi, Selheti, Lohara and Barbaspur. The families of the zamindar and his relatives consist of some 60 souls, and for want of proper medical aid, the zamindar has lost many of his near relatives during the past two years During the past year he lost his brother, a son and a daughter, besides some sons and daughters of his relatives. Since this estate has been taken under management, funds have been expended mostly in payment of debts, a sum of about Rs. 23,000 having been paid up to date including principal and interest. The zamindar urges that the Court of Wards have hitherto managed his estate and paid off his debts, but no public improvements of a permanent nature have been effected and prays therefore that irrigation tanks and wells be also constructed where necessary in addition to a building for himself and the establishment of a Dispensary. These matters he frankly admits, he will not be able to accomplish once he gets back the estate. This is forming the subject of a separate correspondence. There has been an increase of Rs. 1,076-10-4 in the forest income which is very satisfactory. This increase may be attributed to a better management of the forest. During the past year the District manager under the orders of the Deputy Commissioner submitted proposals for a more thorough system of the forest management of this estate. On his tour he thoroughly inspected this forest and brought to the notice of the Deputy Commissioner that two additional peons were required for 6 months of the year (December to May) to watch the exit of forest produce from the two Nakas which had been opened. These temporary peonswere employed during the past year with the result that there was an increase in the income of a sum of Rs. 726 over the income of the preceding year. This was reported to the Commissioner and the appointment of these 2 temporary peons for six months in each year recommended. Sanction has now been accorded, and it is hoped that the forest income will increase year by year, as by this arrangement wood, &c., cannot pass undetected into the neighbouring estates of Chuikhadan, Nandgaon and Gandai as formerly. A license vendor on Rs. 7 per mensem was also appointed at Thakurtola during the past year, resulting in the more free issue of

licenses to the people who were thus saved the inconvenience and the delay they had formerly had to experience when licenses were issued by the Police Moharir only. The large increase of Rs. 142-1-6 in the pound income is due to the fact that two extra cattle pounds were established at Rampur and Bakarkata during the past year. The experimental sugarcane cultivation has been continued with fair success by the residents of the villages of Rampur and Bakarkata. The seed will be distributed gratis to people desirous of sowing it during the current year.

Rup Singh the zamindar is a quiet inoffensive man and does not in any way attempt to interfere with the management of his estate. He has a slight knowledge of Hindi, but he does not attempt to improve this knowledge. By the marriage which he contracted at Selheti during the past year he has taken to himself a third wife. It is to be regretted that this man has contracted some fresh debts without the sanction of the Deputy Commissioner. He has sent the Deputy Commissioner a written petition stating that his debts amount to Rs. 1,000 which he contracted owing to a pressing necessity. The matter is under enquiry and will be separately reported on. His health has been good during the past year, but he has been unfortunate in the loss of many of his relatives.

(b) Mohrenga. —*(Income Rs.* 3,261, *Liabilities Rs.* 11,116*)*—The rents were all paid in without difficulty. The instalments due to the estate on renewed bonds for old and barred debts were fully collected.

As compared with the income of the preceding year there has been an increase of Rs. 946 from all sources which is due to better management. A very large quantity of firewood was cut and sold to the Railway, Jail, and other private individuals during the year.

(b) Bindra Nawagarh. *(Income Rs.* 54,977, *Liabilities Rs. Nil).*—The young zamindar, Kowal Sai, is now in his 20th year of his age. As reported in the preceding year he was brought into Raipur to be educated at the High School which he attended but for a few days. He expressed his unwillingness to go to school and study with the other boys. He is not naturally quick and is inclined to be lazy. Consequently he made little or no progress at all in his studies. Arrangements were made to secure the services of a competent tutor on Rs. 35 per mensem. Kawal Sai remained under this man's tuition but for a few days when he went to his home at Nowagarh on one month's leave. He had his leave extended by 15 days and has not yet returned to Raipur. He has thus overstayed the leave by about 3 months. Arrangements are now being made to secure his attendance at Raipur. His character has not been at all satisfactory. Every effort has been made to improve the youth, but there is fear that there is little hope of any great reform being effected as Kawal Sai is obstinate and not amendable to advice. He has acquired the pernicious habits of extravagance and of drinking and is fond of low company.

The Muafidar of Chura filed a suit for possession of this estate during the past year, but it was dismissed as no previous notice of its institution as required by Section 424, Civil Procedure Code, had been served upon the Deputy Commissioner. The Muafidar, however, has now sent me the requisite notice and the matter has been duly reported through the Commissioner, for the Chief Commissioner's orders.

The finances of the estate are in a very flourishing condition.

A sum of Rs. 30,000 was invested in July last in the 4 per cent loan of 1888 and a sum of Rs. 348-1-7 was received on account of anticipated interest thereon before the close of the past year. This will secure an annual income of Rs. 1,200 on account of interest for the estate.

The land revenue demand is Rs. 10,502-8-0. The payments hitherto made in kind (dhan and grass) were converted in cash and realizations were made during the past year in accordance with the revised jamas.

The unrealized balance at the close of the past year on account of land revenue was very small, *viz.*, Rs. 52-3-3.

There has been a large increase of Rs. 5,102-14-2 in the forest income over that of the preceding year which is very satisfactory. The increase may fairly be attributed to a better management of the forest. Except in the income from "lac" the produce of which was scanty during the past year owing to the scanty rain-fall there has been an increase in almost all the heads of Forest receipts.

Two paid license vendors on Rs. 8 and 7 were appointed during the past year at Paragaon and Kandekela resulting in the more free issue of licenses to the people.

The large increase of Rs. 1,214-6-10 in the income from "sale proceeds of grain" over that of the preceding year is accounted for by the fact that the cash value of large portions of the grain advanced to cultivators in previous years were recovered during the past year as realizations in kind are difficult to control and are apt to give rise to irregularities. There is still a quantity of 1,573 maunds, 28 seers and 8 chattaks as will be seen from Statement No. V. As most of the small villages of this estate are situated in the heart of the forest inhabited by poor cultivators, assistance to them in the way of grain advances is necessary almost every year, and had it not been for this help, some villages, it is feared, would have been almost forsaken by the ryots during the past year.

Last March the Deputy Commissioner entered the Bindra Nawagarh Estate to the north *via* the Chura Ilaka which is a muafidari belonging to it, and he travelled on southwards as far as Borgaon which is beyond the Manipur outpost; some 45 miles distant from the Head Quarters—Paragaon—of the Estate.

Head-quarters have been changed from Paragaon to Nawagarh. The Zamindar and his family live at the latter place, and as public buildings, such as Station house, Treasury, Assistant Manager's office, &c., will be required at Nawagarh after the estate is made over to the Zamindar, it would only be a waste of money to erect them now at Paragaon. They will be built at Nawagarh and will do for the Zamindar's Treasury and office afterwards. Nawagarh too is far more central than Paragaon, besides being the Zamindar's Head-quarters.

The increase in the cost of Police and Pounds is due to an increased expenditure which had to be incurred in consequence of the establishments having been revised in the beginning of the past year. The monthly increase in the cost of Police establishment thus sanctioned is Rs. 49.

The Police have been fairly successful in dealing with the thefts reported, the percentage of cases convicted to the number reported being 65 per cent. They have not, however, been so successful in cases of house-breaking. During the past year the Deputy Commissioner inspected all the prescribed registers now maintained at each Police Post and Station-house as in the khalsa. The Station-house at Deobhog was transferred to Kandekela during the past year in order to locate the Chief Constable in a more central place so as to enable him to inspect all the Police posts oftener than he could do before. By this transfer the Chief Constable can more easily and promptly arrive at the scene of any crime committed in Mainpur and Nawagarh out-post circles than he could while he remained at Deobhog.

The Station-house at Paragaon will also be shortly removed to Nawagarh where the Zamindar's house is situated. Under the Chief Commissioner's orders the Police officers as well as the District and Assistant Managers of this estate have been enrolled as Police officers under Act V of 1861. New clothing, including great coats, was provided for the men, and 10 muskets with 20 rounds of ammunition for each were also supplied for the use of the Police in this estate. There were no complaints of oppression, &c. against the Police.

The expenditure under "Public Works" has, it is to be regretted, been small, because large works costing thousands of rupees, which are necessary, could not be set on foot during the past year for want of a competent overseer. Application for the services of an overseer was made as early as the 1st December 1887, but an overseer has not up to this date been found available for employment in this estate.

The outturn of the rice crops during the past year was fairly satisfactory. The crop was in some parts a 14-anna one, while in others it was a 12-anna one. Rain did not fall at the end of September though it was eagerly looked for by the cultivators, and he c) the rice crop was slightly damaged. Fortnightly returns of the prospect of crops and cattle diseases are regularly received from this estate.

DISTRICT BILASPUR.

MR. D. O. MEIKLEJOHN, Deputy Commissioner.

(c.) Mahtin (*Income Rs.* 3,065, *Liabilities Rs.* 2,235.) The estate was in debt to the extent of Rs. 11,085-2-0 when its management was assumed by Government. Rs. 8,849-13-0 have since been paid off. The estate will probably continue under the care of Government for some years to come, as the Zamindarin Kamhar Kuar is not competent to carry on the management. The estate is in charge of the Tahsildar of Pendra and is directly managed by a Moharir on Rs. 20 per mensem who resides at Jatga. In this place a Post office has been established, the work being done by a Moharir. The five years' settlement expired on the 31st March 1888. The Tahsildar of Pendra, Abdul Ghaffar, was directed to offer the leases on extension of their leases for two years on their present jama with proportionate nazarana based on what had been paid before. No report was however made by the Tahsildar who has since been removed from his appointment for his general neglect of duty.

Rs. 100 have been spent in repairing the Thakurain's house and Rs. 20 in repairing a well. A double barrelled breech loading gun has been also purchased for Buldeo Singh at a cost of Rs. 200. Much injury to crops and some loss of life is reported from wild elephants, now about 70 in number, and some measures will shortly have to be taken to relieve the villagers from their ravages.

(c) Katangi.—(*Income Rs.* 4,805, *Liabilities Rs.* 4,285.) The estates of Katangi and Bilaigarh both belong to Zamindar Sheo Singh. In 1880 the estate of Katangi was taken under Government management, on account of the debts of the Zamindar which amounted to Rs. 18,000. A loan of this amount was borrowed from the chief of Raj-Nandgaon at 6 per cent interest and the debts were paid off. The loan was made repayable in half-yearly instalment of Rs. 1,200 which have since been regularly paid, and nearly Rs. 14,000 of the principal has been adjusted up to date.

But when the management of the Katangi estate was taken over by Government, that of Bilaigarh was allowed to remain in the hands of the Zamindar.

The latter is a man without education and of a weak nature and was entirely in the hands of unprincipled counsellors. No restraint being placed on his power of borrowing, he has been running into debt as before and squandering the money raised on any fancy of the moment. In this way another debt of about Rs. 27,000 has been accumulated. The Zamindar has also on more than one occasion been convicted of disgraceful criminal offences and been fined and imprisoned. Accordingly, in the month of July last, by notification of the local Government under the Court of Wards Act he was declared incapable of managing his own affairs, and the Bilaigarh Zamindari was taken under the care of the Court of Wards from July 29th, 1888. The leases of a few villages the Bilaigarh estate have recently fallen in and steps to re-settle them are now being taken. Of the 42 villages in the Katangi estates,

7 are held by inferior proprietors.
3 do. muafidars.
1 is waste.
31 are held by lessees.

42

The leases of the 31 villages expired on March 31st, 1888, and all of them have been re settled during the year for a term of years ending with the 31st March 1895. The result of the re-settlement is compared below :—

Last jama.	Present jama.	Increase.
Rs. a. p.	Rs. a. p.	Rs. a. p.
2,301-4 0	3,706-0-0	1,404-12-0.

Since the Bilaigarh estate has been brought under the Court of Wards, a Moharir on Rs 30 has been appointed to the charge of both the Katangi and Bilaigarh estates, with two assistant Moharirs on Rs. 10 each who reside respectively at Katangi and Bilaigarh.

(c) Kanteli—*(Income Rs. 8,849, Liabilities Rs. 20,843).*—The estate was taken under management in August 1882 and a loan of Rs. 32,000 was borrowed from Seth Gokuldas of Jabalpur at 7½ per cent per annum. The debt is made repayable in yearly instalments of Rs. 4,000 inclusive of interest payable in the month of June. This sum has been repaid in each of the years 1885, 1886 and 1887. During the year under notice the instalments of 1888 and 1889 have been paid off. The leases of the eight of the villages fell in during the year, and these villages were again farmed out for a further period of five years. The new leases yielded an aggregate annual increase in the jama of Rs. 461.

Ghansi Singh, the zamindar, who is a Gond by caste, is now about 27 years of age. He received some years ago a little education in the Bilaspur Zila school and can read and write Hindi. But he is of feeble intellect and is surrounded by low companions and bad characters.

The uncles of Ghansi Singh, named Lilar Singh and Arjun Singh, live at Kanteli and receive each a cash allowance of Rs. 20 per mensem from the estate.

Ghansi Singh quarrelled with Lilar Singh during the year regarding a piece of land.

A fight took place between them and Lilar Singh's servants, and one of the servants of Ghansi Singh had his arm broken.

Next day Ghansi Singh armed himself with a Talwar and personally accompanied his servants to the fields and cut the crops. On their return to Kanteli they met Lilar Singh and his servants. Another fight took place but without serious consequences. One of Ghansi Singh's men attempted to use a Talwar but was disarmed. Eight of the rioters were tried and convicted in November 1887, including Ghansi Singh, under Sections 323, 324, 147 and 109. Ghansi Singh being fined Rs. 75 by the Tahsildar of Mungeli Kasipershad.

Should Ghansi Singh misconduct himself again, it may be necessary to order him to reside at head-quarters.

(b) Pendra. *(Income Rs. 33,141, Liabilities Rs. 88).* This zamindari is free from debt and has a balance of over Rupees thirty-three-thousand (33,000) to its credit, although a small sum of Rs. 88 is still in deposit for a creditor who has not appeared to receive payment.

The State was taken under direct management in 1882, in consequence of the minority of the late zamindar's son, Indrapat Singh, who is now 10 years old. The boy lives with his mother at Tamani and receives an allowance of Rs. 150 per mensem for his maintenance. He appears to be an intelligent child and is now reading the 3rd Hindi book. He will probably be shortly sent to the Raj-Kumar College at Jabalpur. There have been no changes in the zamindar's family during the period under report.

The income of the estate is derived mainly from land revenue and forest dues.

There has been an apparently large revenue from miscellaneous sources, but the greater part of the receiptance from Postal collections which formerly were not shown on the books of the estate. The method of accounts has been changed and these collections are now all entered, but the credits as regards the estate are nominal.

The Katni Umaria line is now under construction through the zamindari and there will be two railway stations therein, *viz.*, those at Khodri and Gurela. Khodri is 12 miles from Pendra and is the head-quarters of a District Engineer. Gurela is 4 miles from Pendra and the station here will be called the Pendra road station.

The land has been all taken up for the railway and statements of the compensation payable submitted for sanction. The timber cut on the railway line was sold to the Railway Company for the sum of Rs. 3,500. This sum has still to be paid by the company. The railway works have afforded labour to many of the poorer classes of cultivators and day labourers who can earn there from 4½ to 5 annas a day each. The works were of material assistance to the sufferers by the failure of the rice crops, and many families from the Khalsa migrated to their site.

There is a good dispensary at Pendra, but the building is a poor mud hut without any proper accommodation. There is a post office in the Tahsil building and a garden in front of it. The Tahsil building is a large dark shed and it also serves the purposes of a Police Station. An estimate for a new Tahsil building has been submitted for sanction and it is proposed to convert the present building into a Police Station House. There are three schools in the estate. Rs. 185 have been spent on the road through the Komoghat during the year.

The road is largely used by laden cattle in the dry season, and Rs. 487-11-9 were collected as toll bar dues during the year as compared with Rs. 341-11-9 in the year preceding.

The five years' settlement expired on the 31st March 1888. The former lessees will be retained for another two years on their present jama and on payment of a proportional nazarana.

The Tahsildar in charge of the estate, Abdul Gafur, was directed to take the formal agreements of the lessees to this arrangement, but through his delay these agreements have not yet been taken.

The Tahsildar has exercised during the year the powers of a Magistrate of the 2nd Class. His administration throughout the year has been marked by delay, apathy and culpable neglect of orders, and has been the subject of a special report.

The most pressing subjects as regards the estate are :—

(1), the Survey of the cultivated village area,
(2), the demarcation of the State Forests,
(3), the establishment of a patwari circle system.

These subjects will be kept in view in the present year.

(*a*). Pandaria (*Income* Rs. 65,149. *Liabilities* Rs. 2,950). This estate consist of 371 villages and was taken under the care of the Court of Wards on the 29th July 1887, on the death of the zamindar Gajpal Singh. It is the largest and richest of all the non-feudatory estates under Government management in this district. The young zamindar Lal Raghuraj Singh who in his eleventh year was sent to the Rajkumar College, Jabalpur, shortly before the close of the year. Mr. Young, the principal of the Jabalpur College, has written very favourably regarding the boy's intelligence. The boy attended the Chief Commissioner's Darbar held in January last at Bilaspur.

The estate has been managed during the year by Tahsildar Alamchand on a salary of Rs. 250 (excluding pension contribution) who exercised the Civil powers of a Tahsildar of the first class and the criminal powers of a first class Magistrate.

The opening balance on 1st October 1887 was Rs. 65,779-9-9, and the receipts of the year were Rs. 66,108-14-4, making a total of Rs. 131,888-8-1. The expenditure of the year was Rs. 57,013-1-3, and the balance at credit of the estate on the 1st October 1888 Rs. 74,875-6-10.

A large part of the Pandaria town roads consisted of swampy low lying ground impassable in the rains. These have been raised and drained provided with trestle bridges and in some places metalled. A new bazaar has been marked out in the form of a quadrangle and the sites for shops along its sides were eagerly applied for and allotted.

A committee has been appointed at Pandaria who decide questions affecting the internal economy of the town and supervise its sanitation.

The debts of the estate as finally allowed amounted to Rs. 7,034. Of this sum, Rs. 3,488 were paid during the year, and the remainder has been since paid off. Rs. 3,880, arrears of pay due to the tenants of the late zamindar, have been also disbursed.

The zamindari police have been replaced by the District police from 1st May 1888. Almost all the Zamindari Police have taken service in the District force.

There are 4 schools in the estate with an average attendance of 269 out of 387 enrolled. There is a good charitable Dispensary in the town of Pandaria although the present building is not suitable.

Vaccination is carried on by a vaccinator and the Hospital Assistant.

The five years' settlement made by the late zamindar expired in March 1888. The leases have been extended for a further period of two years on the former jamas and a payment of proportional nazarana at 9 per cent on the rental. Meanwhile a survey of the villages has been commenced. Two Revenue Inspectors with 16 patwaris under them divided into two parties have been working since the month of April last. The survey of 45 villages was completed during the year.

Alamchand, Tahsildar, who was in charge of the estate throughout the year worked energetically and merits special commendation.

DISTRICT SAMBALPUR.

Mr. H. H. PRIEST, Deputy Commissioner.

(a) **Borasambar.**—*(Income Rs.* 15,957, *Liabilities Rs.* 60). Statement No. I shows the assessed demand and realizations of land revenue including miscellaneous cesses for the past two years :—

Nature of Income.	Demand for		Realizations.	
	1886-87.	1887-88.	1886-87.	1887-88.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Land Revenue ...	16,705 3 7	13,999 9 11	12,901 14 7	11,378 6 11

The large decrease in the demand on account of malguzari is due to the same cause, as in Phuljhar, *viz.*, not to any actual reductions made by gaontias, but to more careful scrutiny of the demand register, which was prepared when the State was first taken under management, and was based upon the irregular accounts of the late Rajah.

The realizations on the current demand of land revenue have been satisfactory, Rs. 410-1-9 only being in arrears. The greater part of the arrears is due from the time of the Rajah, and it is proposed shortly to submit a list of the sums irrecoverable, so that sanction may be received to striking them off.

Statement No. II. shows the remaining regular income of the State.

There is an increase under almost every head, more particularly from Forests. A small establishment has been sanctioned, and there is now some supervision over the large forest area of this estate. The forest income in this zamindari cannot, however, for some time be expected to expand as rapidly as in Phuljhar which is much nearer to the central lines of communication. No fees are taken from the people of the zamindari, but few outsiders have recourse to this outlying tract, but it is intended to submit proposals both for Phuljhar and Borasambar, for the levying of small fees from all persons having recourse to the jungle.

The total income of the estate during the year under report from all heads thus amounted to Rs. 15,957-7-4, that of last year being Rs. 15,128-14-4. The increase has been as large as could be expected. The estate is backward and requires considerable improvements and opening up.

The new settlement now in course of progress should add to the fixed income and it will then be possible to take in hand many works of permanent improvement as the debts have now been fully paid off. It is satisfactory to note that the personal expenditure of the Zamindar's family amounts only to about 13 per cent of the income of the estate. The young Zamindar has now been removed from the evil influences around him at Borasambar and brought to Sambalpur to attend the High school. He appears at present to be an intelligent boy and it is hoped that with proper training he may be educated in a manner to enable him to properly manage his property.

During the year under report all the debts due when management was assumed have been cleared off out of the income of the estate without recourse to any loan. The estate is now therefore in a thoroughly solvent condition, and the sums which have been expended in clearing off these old debts will now be available for developing the resources of the country. In spite of the expenditure of Rs. 8,600 in repayment of debt over Rs. 2,000 have been advanced to gaontias and agriculturists. Some large and important tanks are in course of construction with this money and there is every reason to believe that the sum has been well invested. Great distress was felt amongst the ryots towards the end of the hot weather and at sowing time, and hence it was found necessary to advance this sum in loans.
